

ACC-FWT

Flange Securement Clip

The ACC-FWT flange securement clips are used to secure a cable tray to PV module frames. The ACC-FWT is made of corrosion resistant 304 stainless steel, which makes it a durable, long lasting and reliable solution for all environments. The ACC-FWT is easy to install and can be installed onto flanges of various thicknesses. ACC-FWT flange securement clips are the perfect solution for keeping the PV installation neat, clean, and free from ground faults. Application is not limited to Solar PV applications, can be used when securing or connecting any flat sheet metals in a similar orientation.

Catalog Number	ACC-FWT
Item Number	50080612
Material	304 stainless steel
Application	Secures cable tray to PV module frame or other similar flanges
Weight Limit	1 LB per clip
Module	Flange thickness range of 1.3 to 3mm
Cable Tray	12-28 ga galvanized steel or aluminum

- Innovative design that allows for quick and easy installations
- High quality, long-lasting, labor saving securement solution
- Corrosion resistant 304 stainless steel provides outstanding durability and performance in all environments
- Installs onto the module frame and cable tray flange
- Clips accommodate:
 - 12-28 ga galvanized steel or aluminum cable tray
 - Module frames that range from 1.3mm to 3mm in thickness
- Snake-tongue tabs securely anchor clips to module frames and cable tray
- Recommended for outdoor use
- Custom designs are available upon request
