WR22500 | Type WR Wirewound Resistor

By Powerohm Resistors
Catalog # WR22500

Type WR Wirewound Resistor 225 Ohms 1.05 A

Features

- Powerohm's Type WR Wirewound Resistors are designed for low current applications ranging from 1.0 to 32.0 amps continuous, and resistance values ranging between 250.0 and 0.25 ohms, respectively
- Can be used for any type of AC or DC power application, including motor control, dynamic braking, neutral grounding and load testing
- The corrosion resistant Type WR resistor will withstand considerable shock and vibration, qualifying it for use in most harsh environments
- Continues Wattage:248

General

Resistance Ohms	225 Ohm

Dimensions

Length	225 in
Weight	0.8 lb

Electrical Ratings

Current / Amperage Rating	1.05 A
Maximum Current Rating Amps Continuous	1.05
Wattage	248 W
