GAI-TRONICS

Portal Graphical User Interface

By GAI-Tronics
Catalog # 12509-x0x

ADVANCE/SmartSeries systems typically display system fault and status messages on an Access Panel, or save them into a log file. Now those who prefer a more flexible PC-based environment can use GAI-TRONICS' Portal Graphical User Interface (GUI) software.

Features

- Graphical Representation of Entire ADVANCE / SmartSeries™ system
- Real-time Notification of System Status and Faults
- Clear, User-Friendly Format
- Supports 1 to 20 Remote View Nodes

General

Series	ADVANCE SmartSeries
