

**BURNDY LLC**  
An Affiliate of Hubbell Incorporated

47 E. Industrial Park Drive  
Manchester, NH 03109

**Mounting System Evaluation (Stage 2 – Testing and Documentation)**

In order to validate the WILEY WEEB® washer compatibility for a specific mounting system, a High Current Test is required on the racking samples, mounting hardware and WEEB® washer combination. As shown below, please email a Purchase Order to your local BURNDY sales rep and ship the requested samples to initiate the project since prepayment is required before testing may begin. A Test Report will be provided and if acceptable results are obtained, an Installation Manual will soon follow. If none of the existing WEEBs are found to be compatible, a custom design may be viable solution. Please fill out the info below and return.

Company Name: \_\_\_\_\_ Mounting System Name(s): \_\_\_\_\_

Contact Person: \_\_\_\_\_ Tel. # \_\_\_\_\_ Email: \_\_\_\_\_

Address: \_\_\_\_\_ City: \_\_\_\_\_ State: \_\_\_\_\_ Zip code: \_\_\_\_\_ Country: \_\_\_\_\_

Mounting hardware size securing modules to mounting system: \_\_\_\_\_ For example: ¼” stainless, 5/16”, M8  
Torque spec for PV module mounting hardware: \_\_\_\_\_ ft-lbs.

Will anti-seize (Penetrox-A) be used on the mounting hardware bolt threads to reduce friction? Yes [ ] No [ ]

Market Applications: [ ] Residential [ ] Commercial [ ] Utility Scale

**Step 1 – Purchase Order** – Email PO to your local Burndy sales rep.

Description:	Includes:	Cost
Mounting System Assembly #	Testing, Report and Installation Manual (if acceptable results)	\$3,000
Add'l Assembly Evaluation	Add'l testing on alternate rail cross-section or midclamp	\$1,000
Re-test	Re-testing system after rail/hardware modifications	\$1,000
Application Note	Brief letter on Wiley letterhead detailing compatibility	\$750
Installation Manual Update	Modifications/corrections to installation manual	\$750

# - Involves only one rail cross-section and one type of mid-clamp/mounting hardware. Costs are subject to change based on project scope and complexity.

**Step 2 - Payment** - Make check payable to BURNDY, LLC

PO cannot have any T&C's since testing requires prepayment	Mail check to:
Itemized list of fees including total amount Example: WEEB Testing for ABC Racking, XYZ Rail... \$3,000 Total cost... \$3,000	BURNDY Attn: Nancy Bedard 47 E. Industrial Park Drive Manchester, NH 03109

**Step 3 - Testing** - Send samples representative of production and include installation manual

Qty.	Description:	Shipping address for samples:
2	Rail Sections...12 inches (30 cm) each in length	BURNDY Attn: Wiley Lab 47 E. Industrial Park Drive Manchester, NH 03109
4 sets	Mid-clamp assemblies	
4 sets	Mounting Hardware	
2	Splice kits (including hardware)	

Note: Testing will not begin until payment and all samples/mounting hardware have been received. Costs are subject to change based on design complexity.
