Mounting System Evaluation (Stage 3 – Modifications or Custom WEEB Design)

Company Name: _____ Mounting System Name(s): _____

Contact Person: _____ Tel. # _____ Email: _____

Address: _____ City: _____ State: _____ Zip code: _____ Country: _____

Mounting hardware size securing modules to mounting system: _____ For example: ¼”stainless, 5/16”, M8

Torque spec for PV module mounting hardware: _____ ft-lbs.

Will anti-seize (Penetrox) be used on the mounting hardware bolt threads to reduce friction? Yes [] No []

Market Applications: [] Residential [] Commercial [] Utility Scale

Do you agree to purchase 25K pieces for minimum custom solution order? Yes [] No []

OPTION 1... Modify the racking system and/or components based on recommendations in the Test Report

Description:	Includes:	Cost
Re-test	Re-testing system after rail/hardware modifications	\$1,000

OPTION 2... Pursue custom WEEB design

Description:	Includes:	Cost
Prototype WEEB design	Hand Samples for custom WEEB to validate testing on system	\$2,000
Tooling Development	Tooling design for production of custom WEEB	TBD
Custom WEEB order	25,000 pcs. minimum order for custom WEEB	TBD

Note: All tooling is property of BURNDY, LLC.

Payment - Make check payable to BURNDY, LLC

PO cannot have any T&C's	Mail check to:
Itemized list of fees including total amount Example: <i>Prototype WEEB design for XYZ Rail... \$2,000</i> <i>Total cost... \$2,000</i>	BURNDY Attn: Nancy Bedard 47 E. Industrial Park Drive Manchester, NH 03109

Testing - Send samples representative of production and include installation manual

Qty.	Description:	Shipping address for samples:
2	Rail Sections...12 inches (30 cm) each in length	BURNDY Attn: Wiley Lab 47 E. Industrial Park Drive Manchester, NH 03109
4 sets	Mid-clamp assemblies	
4 sets	Mounting Hardware	
2	Splice kits (including hardware)	

Note: Testing will not begin until payment and all samples/mounting hardware have been received. Costs are subject to change based on design complexity.
