RACO

Threaded Rigid / IMC Conduit Hub Grounding Rings

PRODUCT FEATURES

- Die cast zinc construction provides corrosion resistance
- NPSM tapping threads
- Slotted head, steel, water-tight bonding screw

1753

1754

APPLICATIONS

- RACO Conduit Hub Grounding Rings are intended for use with RACO threaded die cast zinc Rigid/IMC conduit hubs.
- Install the hub into a threadless enclosure opening and secure by threading the ring onto the end of the hub throat and tightening. Secure the ground wire to the bonding screw.
- The bonding screws assure ground path continuity throughout the raceway.
