FOR IMMEDIATE RELEASE

New RACO Nonmetallic Electrical Boxes for Vehicle Industry

South Bend, Indiana October 15, 2019 – RACO introduces the 7322 Nonmetallic Electrical Box. The lightweight box is designed for branch circuit wiring in the RV industry. RACO, part of Hubbell Commercial Construction, provides innovative electrical products to commercial and residential markets.

RACO's new single-gang electrical box is designed for fast wiring with nonmetallic sheathed electrical cable. Used to splice wires in branch circuits, it accommodates wiring devices such as switches and receptacles. The shallow 7322 design includes self-clamping wire entries and a front-mounted grounding screw. Two models are available. The 7322RAC is the standard model while the 7322-OW includes positioning tabs for fast, accurate mounting on studs or joists.

Made of high strength polycarbonate, RACO's latest box provides an easy-to-install alternative to standard boxes. The shallow design is perfect for applications that require lightweight electrical components, such as recreational vehicle and trailer manufacturing.

Availability of RACO 7322 boxes begins October 2019. Find more information at www.hubbell.com.

Keywords: electrical box, fast wire, branch circuit wiring, shallow electrical box, nonmetallic cable box, trailer box, RV wiring, raco, hubbell

About Hubbell Commercial Construction

Hubbell Commercial Construction includes five brands that provide innovative and cost-effective electrical products with superior customer service for commercial and/or residential markets. RACO creates electrical boxes, covers, and fittings. TayMac crafts "while in use" covers for outdoor electrical applications. Bell produces weatherproof boxes, covers and outdoor lighting. Wiegmann offers the most complete line of electrical enclosures for OEM, Commercial Construction, and MRO markets. Acme manufactures power conversion and conditioning equipment for industrial, commercial and OEM applications.

These historic brands are part of Hubbell Incorporated, one of the largest electrical manufacturers in North America. The company's history of innovation extends back to 1889. Founder Harvey Hubbell invented the pull chain light switch and duplex receptacle.
