**FOR IMMEDIATE RELEASE**

## **RACO Introduces Grand Slam Box**

**South Bend, Indiana** November 14, 2017 – RACO has introduced the Grand Slam Box. The new product series offers flexibility, space and labor savings when distributing MC branch circuits from home run conductors. RACO, part of Hubbell Commercial Construction, provides innovative electrical products to commercial and residential markets.

Just as in baseball, hitting a home run is special, but hitting a grand slam is spectacular. The Grand Slam Box features RACO's patented STAB-IT® cable clamps, which test at over 3x faster than traditional MC connectors. These clamps handle flex, MC, MCI, MCI-A, HCF and AC cables. Specifically designed for commercial applications, RACO's new product provides electrical contractors an effective way to reduce installation time.

Grand Slam series enclosures are available with or without concentric knockouts on the sides and back. Each unit ships with a surface mount cover, and a ground bar for quicker termination of grounds. The UL Listed junction box is available in two sizes, 8"x8"x3" or 12"x12"x4" and include *STAB-IT* clamps for 8 or 12 cables respectively.

Grand Slam Boxes are available now. Find more information at [www.hubbell.com](http://www.hubbell.com). Follow the brand on [LinkedIn](#) and [Twitter](#).

### **About Hubbell Commercial Construction**

Hubbell Commercial Construction includes five brands that provide innovative and cost-effective electrical products with superior customer service for commercial and/or residential markets. RACO creates electrical boxes, covers, and fittings. TayMac crafts "while in use" covers for outdoor electrical applications. Bell produces weatherproof boxes, covers and outdoor lighting. Wiegmann offers the most complete line of electrical enclosures for OEM, Commercial Construction, and MRO markets. Acme manufactures power conversion and conditioning equipment for industrial, commercial and OEM applications.

These historic brands are part of Hubbell Inc., one of the largest electrical manufacturers in North America. The company's history of innovation extends back to the 1890s when Harvey Hubbell invented the pull chain light switch and duplex receptacle.
