**FOR IMMEDIATE RELEASE**

## **Wiegmann Introduces New Stainless Steel Enclosures**

**South Bend, Indiana** April 10, 2018 –Wiegmann has introduced the RSC-NKSS line of stainless steel electrical enclosures. These new screw cover enclosures provide superior protection for electrical components indoors or outdoors. Wiegmann, part of Hubbell Commercial Construction, provides innovative electrical products to OEM, industrial and commercial markets.

Designed for use as wiring boxes or junction boxes, these models are based on Wiegmann's RSC product line. This creates a first in the marketplace for NEMA 3R screw cover wall-mount enclosures. Adding stainless steel to this design provides corrosion resistance without the greater expense of a NEMA 4X enclosure. RSC-NKSS models provide protection for electrical components beyond competing products.

Additional RSC-NKSS enclosure design features include:

- Drip shield top with smooth seamless sides and front
- Slip-on reversible cover, securely fastened with screws along the bottom edge
- No gasketing required
- Mounting holes located on the back of the enclosure
- Hasp for padlocking or meter seal

Wiegmann's new enclosures provide protection from dripping water or corrosive environments indoors or rain, sleet or snow outdoors. A wide range of sizes are available for use with almost any application.

Availability of Wiegmann RSC-NKSS stainless steel enclosures begins early 2Q2018. Find more information at [www.hubbell.com](http://www.hubbell.com). Follow the brand on [LinkedIn](#) and [Twitter](#).

### **About Hubbell Commercial Construction**

Hubbell Commercial Construction includes five brands that provide innovative and cost-effective electrical products with superior customer service for commercial and/or residential markets. RACO creates electrical boxes, covers, and fittings. TayMac crafts "while in use" covers for outdoor electrical applications. Bell produces weatherproof boxes, covers and outdoor lighting. Wiegmann offers the most complete line of electrical enclosures for OEM, Commercial Construction, and MRO markets. Acme manufactures power conversion and conditioning equipment for industrial, commercial and OEM applications.

These historic brands are part of Hubbell Inc., one of the largest electrical manufacturers in North America. The company's history of innovation extends back to 1889. Founder Harvey Hubbell invented the pull chain light switch and duplex receptacle.
