2.4/5 GHZ 11 DBI 3 Element High Density Patch Antenna with N-Style

#### ATS-APANTARTMNT-UNIV3

Universal AP and Antenna Articulating Mount V3

AccelTex Solutions has engineered and manufactured Wi-Fi products for a variety of industries—including in healthcare and hospital settings. No matter what the use case is, AccelTex Solutions has the wireless industry expertise and engineering capabilities to ensure that the correct Wi-Fi solutions are implemented.

We have a variety of antenna types available based on location and RF coverage needs. Our antennas are aesthetically-pleasing and easy to install.

Our polycarbonate enclosures are durable and protect your valuable Wi-Fi equipment from tampering, and inclement weather.

We also have In-wall/In-ceiling enclosures that can be flush-mounted to further protect valuable network equipment.

**We can also develop customized solutions for specific environments.**
