PRODUCT OFFERING

QUALITY • VALUE • VERSATILITY
LED FAMILY

The Compass LED Series includes economical, energy-saving fixtures for use in commercial or light industrial applications. The Compass LED Series is value engineered to reduce costs without sacrificing quality and provides a compact product offering that can be purchased and installed without compromise.

Quality
- Long-life LED operation
- Premium Nickel Cadmium battery
- Low energy consumption

Value
- Remote capacity option with matching remotes
- Damp and wet location products
- UL924 Listed
- 2 Year Warranty

Versatility
- Fully adjustable optics
- Bright and even EXIT illumination
- Optimized spacing and coverage
- Indoor and outdoor applications
Self-Test | Self-Diagnostics

Self-Testing
15-minute discharge once every 30 days
90-minute discharge once every year

Self-Diagnostic
Fault identification for battery, charge, LED integral lamps and remotes
Self-Testing for 15 minutes monthly, and 90 minutes annually
Manual testing for 30 second, 15 minutes and 90 minutes

Fault Description LED IN

Included on the following products:

**Combo Exit/Emergency Light**
- CCRSD
- CCGSD
- CCRRCSD
- CCGRCSD

**Exit Sign**
- CERSD
- CEGSD

**Emergency Light**
- CU2SD
- CU2RCSD

**Square Head Emergency Light**
- CU2SQSD
- CU2RCSQSD

**High Lumen Emergency Light**
- CU2HLSD
- CU2HLHOSD
- CU2HLSDS
- CU2HLHOSDS
EXITS AND COMBOS

- LED Life-cycle of more than 10 years
- Nickel Cadmium battery for UL recognized 90 minute emergency lighting
- Dual-voltage 120 or 277V AC input
- Provided with test switch and AC-On Indicator
- Canopy included

- Field selectable red or green LEDs
- White or Black housing made of high impact UL flame rated thermoplastics
- Molded-in template for quick installation
- Lamp heads are fully adjustable
- Remote capacity or extended run-time option
- Matching indoor or outdoor remote heads
- Damp Location Listed

- Housing and face plate made from impact resistant polycarbonate
- Corrosion resistant and faceplate fully gasketed
- Wall, End or Ceiling Mounted
- Wet location listed (20°C to 50°C)
- Single or Double Face options

- Brushed Aluminum Housing with Acrylic Panels
- Panel illumination with red or green letters
- Mirror divider on single and double-face models
- Low input power consumption at 3.72 Watts
- Listed to UL924 Standard

- White or Black housing made of high impact UL flame rated thermoplastics
- Molded-in template for quick installation
- Square Heads are fully adjustable
- Remote capacity or extended run-time option
- Matching indoor or outdoor remote heads
- Damp Location Listed

- Exit face-plates and lamp-head shield made from high impact, UV stable polycarbonate
- LED-based exit/emergency light for wall, ceiling or end mounting
- Includes Self-Test/Self-Diagnostics
- Fully adjustable LED lamp heads at 3.6W each
- Wet Location Listed
EMERGENCY UNITS

CU2HL
High Lumen Emergency Light

- LED Life-cycle of more than 10 years
- Quick Installation
- 90 minute run-time
- Dual-voltage 120 or 277V AC input

REMOTE HEADS

CIR
Indoor Remote

- Fully adjustable lamp heads
- Single or double lamp head remote with base plate
- Housing made of white or black high impact UL flame rated thermoplastic

COR
Outdoor Remote

- Fully adjustable lamp heads
- Single or double lamp head remote with base
- Fully gasketed for application in wet environment
- Housing made of white or black high impact UL flame rated thermoplastic

CU2W
Wet Location Emergency Light

CU2
Emergency Light

CU2SQ
Emergency Light with Square Heads

CU2FO
Fixed Optic LED Emergency Light

- Grey or Black housing
- Corrosion-resistant UV stabilised polycarbonate housing
- Remote capacity or extended run-time option
- Fully adjustable lamp heads
- Water-proof test switch and AC-On indicator
- UL Listed (0°C to 55°C)

- Housing made of white or black high impact UL flame rated thermoplastic
- Corrosion resistant UV stabilized polycarbonate housing
- Fully adjustable square lamp heads
- Water-proof test switch and AC-On indicator
- Wet Location Listed (0°C to 55°C)

- Fully adjustable lamp heads
- Single or double lamp-head remote with base-plate
- Fully gasketed for application in wet environment
- Housing made of white or black high impact UL flame rated thermoplastic

- Fully adjustable lamp-heads
- Single or double lamp-head remote with base
- Fully gasketed for application in wet environment
- Housing made of white or black high impact UL flame rated thermoplastic

- Injection molded, flame retardant thermoplastic housing
- Fully gasketed polycarbonate shield with integral lamp heads
- Fully adjustable lamp heads
- Water-proof test switch and AC-On indicator
- Wet Location Listed (0°C to 55°C)

- Injection molded, flame retardant thermoplastic housing
- Fully gasketed polycarbonate shield with integral lamp heads
- Fully adjustable lamp heads
- Single or double lamp head remote with base plate
- Housing made of white or black high impact UL flame rated thermoplastic

- Fully adjustable lamp heads
- Single or double lamp-head remote with base
- Fully gasketed for application in wet environment
- Housing made of white or black high impact UL flame rated thermoplastic

- Includes long-life Nickel Cadmium battery for UL recognized 90 minute emergency lighting
- The fixed optic design provides consistent and predictable aiming
- Wall or Ceiling mount

- Housing made of white or black high impact UL flame rated thermoplastics

- Housing made of white or black high impact UL flame rated thermoplastics

- Long Life Nickel Cadmium battery
- Provided with test switch and AC-On indicator
- Wet Location Listed (20°C to 30°C (68°F to 86°F)

- Long Life Nickel Cadmium battery
- Provided with test switch and AC-On indicator
- Wall or Ceiling mount

- Long Life Nickel Cadmium battery
- Provided with test switch and AC-On indicator
- Wall or Ceiling mount

- Long Life Nickel Cadmium battery
- Provided with test switch and AC-On indicator
- Wall or Ceiling mount

- Long Life Nickel Cadmium battery
- Provided with test switch and AC-On indicator
- Wall or Ceiling mount
**OUTDOOR**

* Wet location rated
* AC-On Indicator and push to test switch

**CUW**
Outdoor Emergency Light
- Durable die-cast aluminum housing
- Fully sealed and gasketed design
- Normally-on and emergency operation
- Includes Self-Diagnostic/Self-Test
- Photo-Control standard and Optional heater

**CUSO**
Slim AC/Emergency Outdoor Light
- Housing is fully sealed and gasketed, and has an IP65 rating
- Includes self-diagnostic/self-test feature to monitor proper operation
- Includes photo-sensor and Passive Infrared sensor for normally-on operation
- 0°C to 50°C Standard Model, -25°C to 50°C with optional heater

**CSWEU2LED**
Shielded Wet Location Emergency Light
- LED Life-cycle exceeding 10 years
- Quick installation
- Dual-voltage 120 or 277VAC input
- Long-life Nickel-Cadmium battery at 3.6VDC for UL recognized 90 minute emergency lighting
- Wet Location Listed for 10°F to 40°F (0°C to 4°C)
- External Push-to-Test switch
- Wall or Ceiling Mount

**CU2SO**
Shielded Outdoor LED Emergency Light
- Includes long-life Nickel Cadmium battery for UL recognized 90 minute emergency lighting
- Wet Location Listed 0°F to 40°F (25°C to 50°C)
- Includes test switch and AC-On indicator

**INTERNATIONAL**

* Meets international input voltage installation
* Universal single or double face plates

**RME**
Running Man Exit Sign
- International Running Man Symbol
- Durable, powder coated 20 gauge steel housing
- Includes face-plates for single or double face
- Includes long-life 4.8V Nickel Cadmium battery
- AC, Emergency and Self-Diagnostic models available
- Dual 120/347VAC input, 50/60 Hz

**CSR**
International SALIDA Exit
- Meets international input voltage installation
- Molded-in template for quick installation
- Universal single or double face SALIDA panel
- Optional long-life 4.8V Nickel Cadmium battery for 90 minute emergency lighting
- Provided with test switch and AC-On indicator
