****E-Z™** PULL FEATURES:**

- Mount under workbench or low on wall
- Supply air to tools, compressed air for inflating or cleaning
- Increases safety - hose does not “fly back” to reel

Cable and Hose Management

Since 1911, Gleason Reel Corp. has been in the business of cable and hose management. Our products are designed to convey and protect valuable cables and hoses that power and control moving machines of all types. They improve productivity and safety on the job by moving cables and hoses away from hazardous locations on machinery or the shop floor into a controlled environment. Whether you choose Reels for efficient storage and payout from virtually any angle, Festoon Systems for overhead applications or PowerTrak® for protection on machinery in motion, your cables and/or hoses will last longer and provide better service with a cable management system from **Gleason Reel Corp...**

...The Cable & Hose Management Company!

In addition to the hose reels shown in this bulletin be sure to look for Gleason cable and cord reels, festoon systems, PowerTrak cable and hose carriers, and slip ring assemblies. Also check out Hubbell Workplace Solutions workstation kits and components, tool balancers and rotary limit switches.
