

Your Safety Compliance Solution

Qualtech™

ADDRESSING YOUR COMPANY'S NEEDS FOR OSHA COMPLIANCE AND MSDS REGULATIONS.

At Gleason Reel Corp., safety compliance matters to us! At our facility we use our very own Qualtech™ A1200-02 Right-to-Know Document Stands to house our safety policies, procedures and data sheets. These high impact, highly visible document stands are your industrial duty solution to your safety concerns and to include in your written MSDS program. It puts all of your documents in a central, organized storage location. OSHA requires that:

“MSDSs must be readily accessible to employees when they are in their work areas during their workshifts... The employees must have access to the MSDSs themselves.”

Our Qualtech™ Right-to-Know Document Stands feature a large three-ring binder holder with a plastic covering to keep your important paper sheets protected. On the writing panel there are two paper clips on each end which could be used to hold temporary files such as meeting announcements or update notices -- also protected with a plastic cover. These panels are mounted on a three-legged stand, perfect height for visibility and for accessing properly. Our designs keep safety a top priority.
