

Aluminum Service Poles

Welcome to the
Future of Efficient
Power Distribution with
Hubbell Canada Service Poles!

 CANADA

Elevate Your Space with Hubbell Canada Service Poles

Product Features

Material Excellence: Constructed from durable extruded aluminum available in multiple finishes.

Flexible Outlets: Equipped with power and data outlets that can be positioned for easy access.

Integrated Channels: Separate channels for power and data cables ensure organized and safe routing.

At Hubbell Canada, we understand that the modern workspace demands innovative solutions for power distribution and communication. Our service poles are designed to seamlessly integrate into any environment, providing a sleek, efficient, and organized way to route services directly to the point of use.

Proudly Made in Canada

Why Choose Hubbell Canada Service Poles?

- **Versatile Applications:** Perfect for open offices, retail spaces, workshops, and anywhere power and data integration is needed away from walls
- **Multiple Configurations:** Available in single or dual-channel designs to accommodate power, data, and communication needs
- **Flexible Mounting Options:** Can be mounted to the floor, ceiling, or both, providing adaptability to different space requirements
- **Customizable Configurations:** Choose from a variety of models including standard, telescopic, and customizable options to fit your specific needs
- **Aesthetic Design:** With a minimalist and modern look, our poles are available in multiple finishes to complement your interior design
- **Easy Installation:** Designed for quick and straightforward installation, our service poles reduce labour costs and minimize disruption in your workspace
- **Safety and Compliance:** All Hubbell Canada Service Poles meet rigorous standards for Canadian Standards Association
