

SOLUTIONS OVERVIEW

# ELECTRICAL CONTRACTOR

# SOLUTIONS THAT WORK

As you build and maintain the electrical systems that power the buildings people live and work in, you face challenges that require reliable, efficient and proven solutions. So, we work every day to make your life easier and your business better, for all the ways you work. We got you!

Partner with Hubbell, a company that supports your work. We offer contractors a comprehensive portfolio of electrical products that are safe, timesaving, and keep your projects on schedule and within budget. When you choose us, you're choosing innovation backed by more than 130 years of trust, quality, and reliability.

Our relentless commitment to quality ensures our electrical products deliver high performance installation coupled with a great user experience. No matter how big or small the job, we'll meet your project requirements.

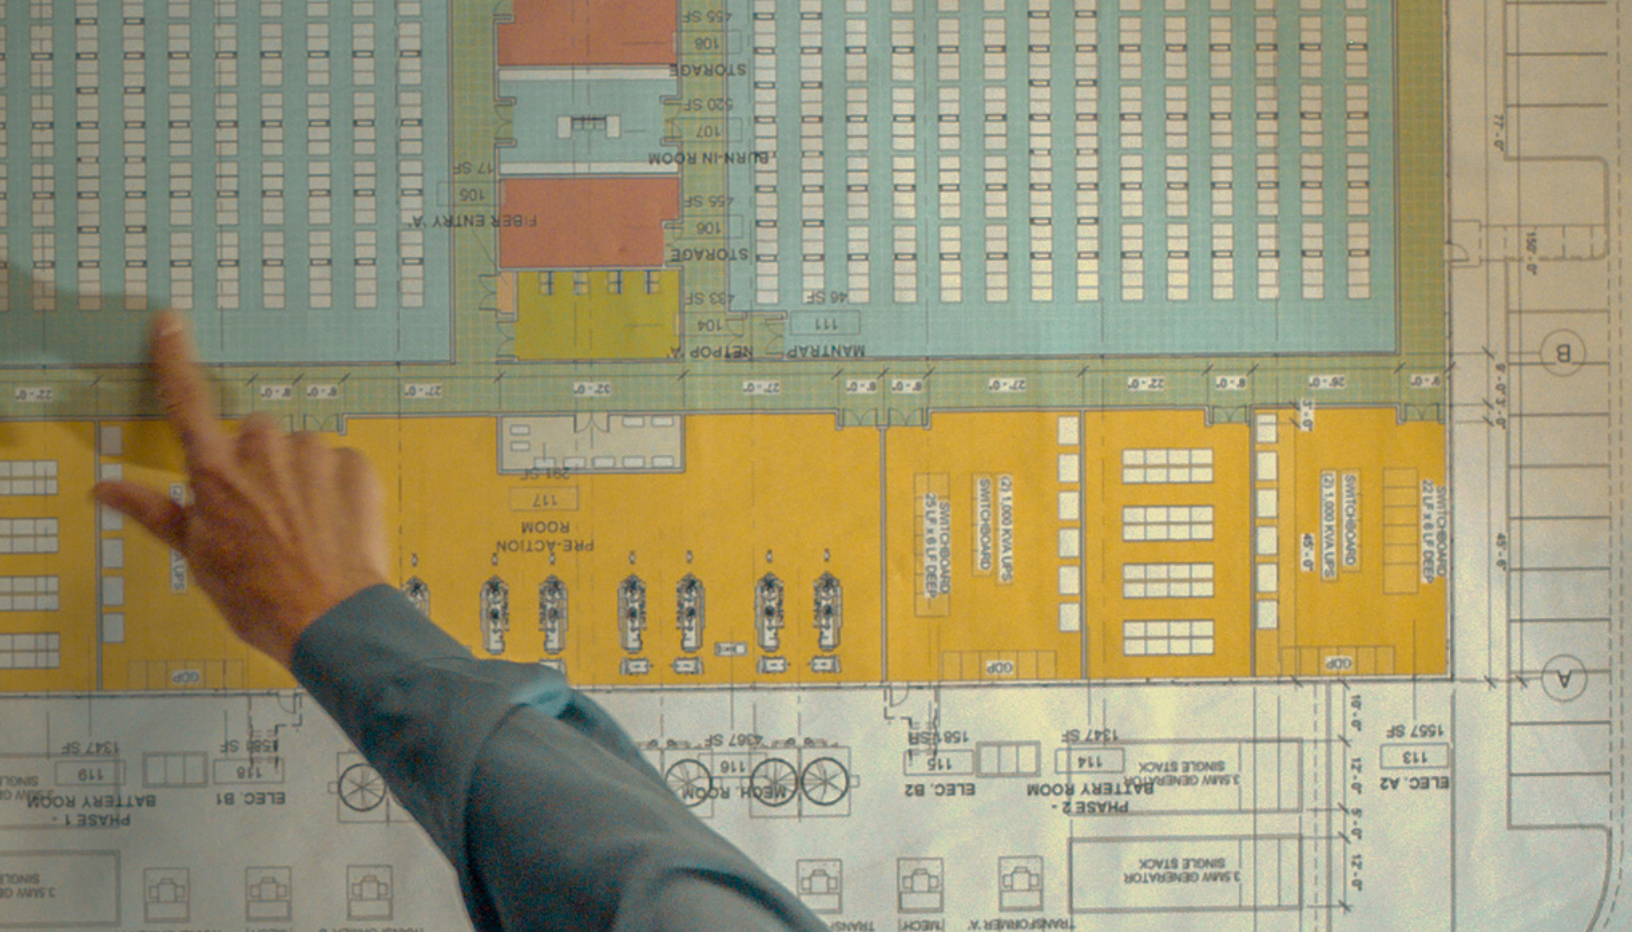

## Supporting facility stakeholders at every stage

**Developers  
and/or Owners**

**Architects and Engineers**

**Contractors and  
Construction Managers**

**Property and  
Facility Managers**

Quality products from a family of trusted brands

# Solutions aligned with each phase of your project

1

## Planning and Design

- Code-compliant product solutions
- Innovative product for unique applications
- Specification text
- BIM files and drawings
- Engineering details
- Product consultation

2

## Pre-Construction

- Product availability and lead-time
- Alternative product and value engineering options
- Detailed project take-offs
- Submittal preparation services
- Complete BOM and quote preparation
- Change order assistance

3

## Site Preparation

- Project and material scheduling support
- Temporary power and lighting
- Underground enclosures
- Helical anchors
- Grounding & bonding

4

## Construction

- Footings & foundations: Concrete boxes, grounding, helical anchors, outdoor enclosures
- Rough-in-box assemblies: Fittings, conduit connectors, enclosures, pathways, devices
- Equipment install: Racks, power connections
- Trim out: Enterprise wiring, wiring devices, wireless network, device plates, covers

5

## Project Close Out

- Technical support
- Documentation
- Training

# Productive strategic partnerships

We offer a complete range of electrical construction products that provide innovation, convenience, and durability for all phases of construction. Hubbell is committed to quality, ensuring our electrical products deliver high performance installation, unmatched safety, and a great user experience, while consistently meeting industry standards. No matter the project size, we can customize our solutions to your application. Address the needs of all your stakeholders at every stage of construction: engineers, electricians and installers, facility owners and managers, as well as end users. Count on us to add value to your project.

## Productivity

We challenge ourselves to make our products easier to specify, easier to procure, and easier to install. Our commitment to improving efficiency at each step remarkably impacts productivity and your net profitability.

## Service

We are proud of our reputation for service – earned over time by delivering best-in-class technical, purchasing, installation, and operational support. You can trust us to be there when you need us.

## Sustainability

We're driving down our own natural resource consumption while providing you with products that enable a more sustainable infrastructure.

## Innovation

We didn't become a leading manufacturer of electrical products by following others. Our engineers continually examine new materials, designs, and new perspectives to deliver innovative products in support of electrical contractors.

# Industry leading portfolio of products

Serving the needs of the electrical contractor is an enterprise priority for Hubbell. We are accomplishing this by continually challenging ourselves to develop more and better products, and selectively enhancing our portfolio through strategic acquisition. You can count on us!

**Grounding & Bonding**

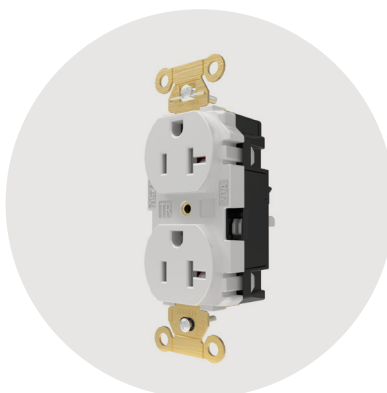

**Tools & Connectors**

**Underground Enclosures**

**Steel Boxes, Covers, and Fittings**

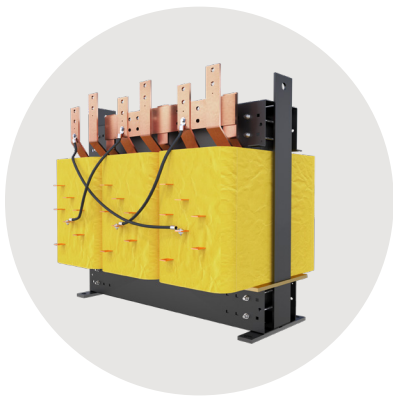

**Electrical Devices**

**Enclosures**

**Transformers, Power  
Conversion, and  
Conditioning**

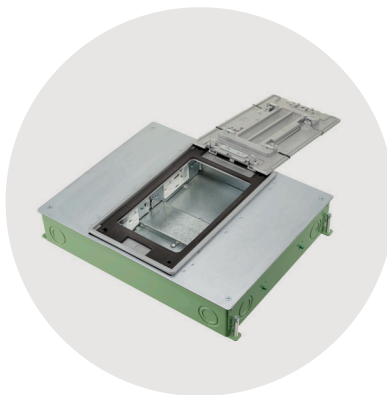

**Hazardous &  
Industrial Lighting**

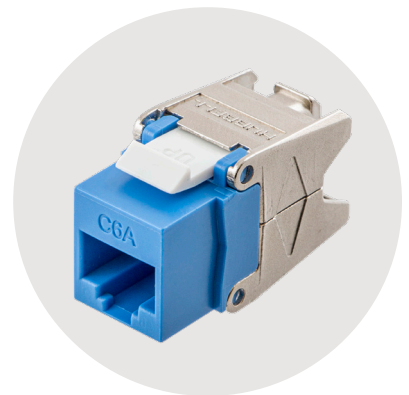

**Hazardous &  
Industrial Fittings**

**Weatherproof  
Boxes and Covers**

**Delivery Systems**

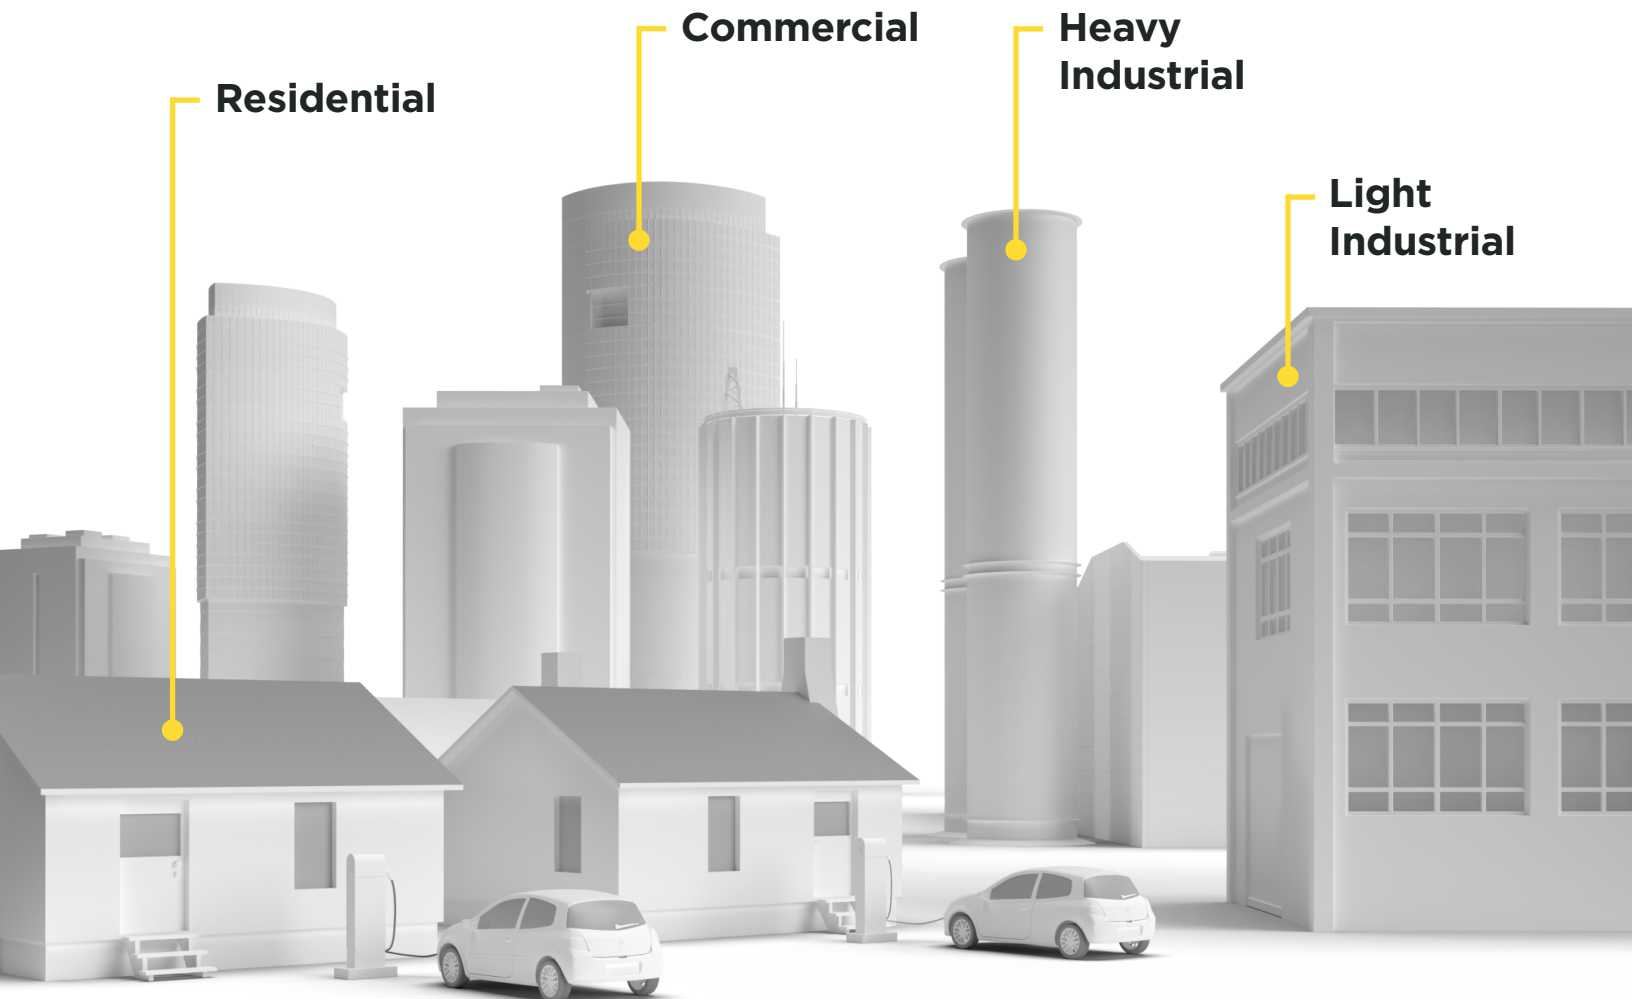

**Copper & Fiber  
Network Cabling,  
Systems**
