VERSATILITY

UTILITY

noun
I. the state or quality of being useful; usefulness
adjective
II. having or made for a number of useful or practical purposes rather than a single, specialized one

PERFORMANCE

- Class leader in performance — standard and high efficacy options now available.
- Choose from 70/80/90 CRI color rendition options to refine the aesthetics of the environment.
- Round mechanical design simplifies and enhances symmetrical installation.
- Wide ambient operating range up to 65°C (149°F).
- Light weight construction for easy installation.

DIMENSIONS

UPGRADED CAPABILITY

- Emergency lighting options ensure proper illumination in emergency mode with control override capability, CSA certified to UL 924 standards.

- Integrated sensor options include standalone sensors and NX integrated controls.

NX HubbNET™ Radio Module

Allows UTB2 to communicate control protocols

NX Sensor Module

NX controls integrated sensor

CONTROL YOUR SPACE EFFORTLESSLY

Hubbell Lighting's UTB2 high bays are available with integrated NX Distributed Intelligence™ lighting control sensors and modules from Hubbell Control Solutions. NX offers complete, code-compliant lighting controls with occupancy/vacancy detection, individual or multi-zone daylight level (harvesting) dimming, time schedules and native BACnet® building networking built in.

Truly Intelligent

NX integrated UTB2 high bays use the Device Setup App for wireless programming and scheduling, dramatically reducing the time it takes to configure or modify crucial settings. UTB2 high bays with NX sensors are optimized for high mounting heights typically found in warehouse, manufacturing and gymnasium applications.

Scalable

Using wired, wireless and hybrid networks, the NX enabled UTB2 high bays operate in multi-tiered control strategies.
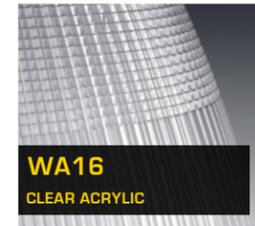

Simple

NX Integrated UTB2 high bays simplify planning and reduce installation costs and complexity—no additional control wiring.
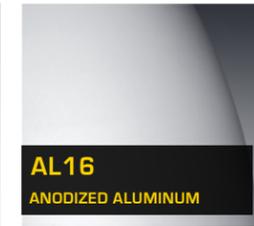

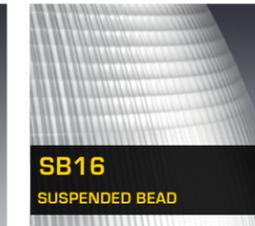

REFLECTOR & LENS OPTIONS

The Utilibay™ High Bay is available with 5 different reflector options and 3 different lens options providing a solution for a variety of environments.
