

LITEISTRY™

LITEISTRY has a large variety of finishes & colors, providing 27 different combinations with additional flange options. Ordering is made simple with a 1, 2, 3, selection process.

STEP 1

Select Finish – The Finish provides the level of ceiling appearance or ‘brightness’.

* Finish not applicable for painted reflectors. For WC or BC, go directly to Step 2

STEP 2

Select Color – Add color if necessary or preferred to any Finish selection

STEP 3

Select Flange Option

FINISHES

- 

SPECULAR (s)
Specular is a mirror-like finish that creates a low brightness, glare-free appearance with its precise cutoff.
- 

SEMI-SPECULAR (ss)
Semi-Specular exhibits a slightly diffuse look in the ceiling plane while still maintaining a glare-free appearance.
- 

AMERICAN MATTE™ (MFC)
Prescolite's patented American Matte™ (U.S. Patent No. 6,254,256) finish has a stippled surface texture that provides a softer cutoff with dynamic brightness that helps hide fingerprints.
- 

SOFTSHEEN™ (vss)
SoftSheen™ falls in between the Specular and Softglow® finishes. It offers a deeper finish than Semi-Specular with a slightly brighter ceiling appearance.
- 

SOFTGLOW® (vs)
Softglow® reflectors raise the ceiling plane visually by creating controlled brightness without glare at the aperture. It is an excellent alternative to a white painted reflector finish.

COLORS

- 

CLEAR (STANDARD)
- 

CHAMPAGNE GOLD (CG)
- 

BLACK (BL)
- 

LIGHT WHEAT (LW)
-
