

cûrv

SPOTLIGHT

LCV CURV LED | CV CURV FLUORESCENT

Glare-free indirect lighting.

Energy efficient LED and fluorescent sources.

Integral sensor and egress solutions.

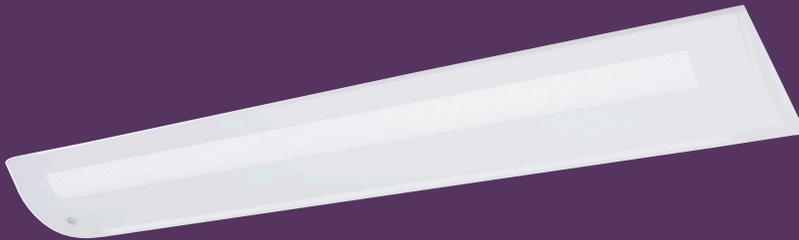

CURV INDIRECT LIGHTING

- A graceful curved shape providing indirect illumination
- Compliments most architecture for retrofit or new construction of office, education, healthcare, and municipal buildings
- Popular applications include areas where laptops, tablets, and smartphones require special attention to glare concerns, or where daylight harvesting is part of the building design

PERFORATED HOUSING

Pleasant, glowing profile, shown with installed daylight sensor

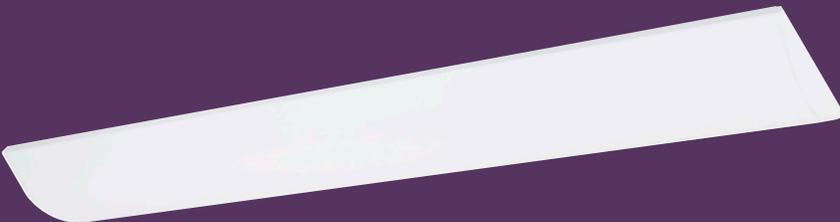

SQUARE PERFORATED HOUSING

2" Square Perforated Housing

SOLID HOUSING

Smooth Curved Profile

END CAPS

Select one of three ends to compliment the space

FLAT END
Standard

SCULPTED END
Optional
Adds 5⁵/₁₆" per end
(10⁵/₁₆" total)

BULL NOSE END
Optional
Adds 5⁵/₁₆" per end
(10⁵/₁₆" total)

INTEGRAL SENSORS

Curv indirect products are fully compatible with daylight and occupancy sensors. The curv family can be ordered and shipped with sensors integral to the luminaire or configured to operate with ceiling or wall mounted sensors by others.

ALERA EXPRESS QUICK SHIP

Our popular 10-day shipping program features many Curv configurations.

CUSTOMER SUPPORT

Our team of specialists are ready to work with you on project planning, rough-in drawings, and technical assistance. Call (864) 678-1000 or visit aleralighting.com.

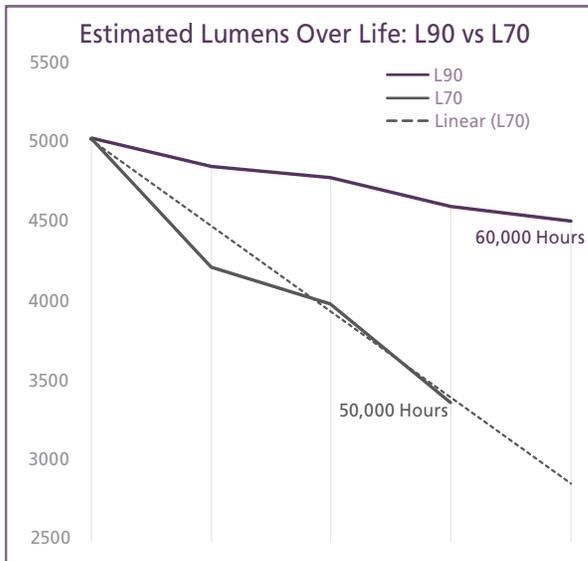

CURV INDIRECT LIGHTING LED

Attractive and affordable Curv LED provides substantial energy savings, new technology, and low maintenance.

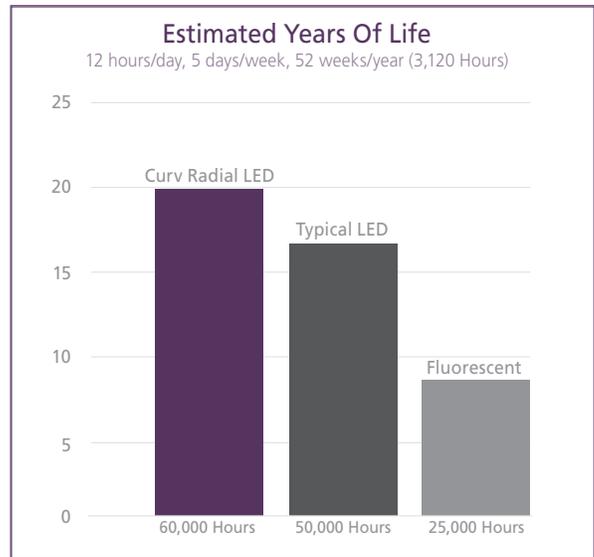

LED

Curv LED is a simple replacement for fluorescent, with exceptional life and lumen maintenance for dependable performance over time.

EXCEPTIONAL LED QUALITY

Compare Curv LED's L90 lumen maintenance at 60,000 hours to the industry standard L70 at 50,000 hours.

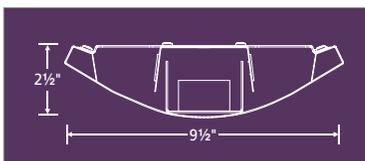

Compare Curv LED's 60,000 hours of life to the industry standard LED at 50,000 hours and fluorescent at 20,000 to 25,000 hours.

LIGHTING LAYOUT

40' x 40' x 10' Reflectance 80/50/20 | 8.5' Mounting Height | (3) 32' Rows (Quantity 12 of 8' Luminares)

RESULTS

OFFICE

Within recommended light levels. Below ASHRAE 90.1-2013 lighting power density, whole building, office.

LCV ML AVERAGE FOOTCANDLES 34fc
LCV ML LIGHTING POWER DENSITY 0.65 w/ft²

OFFICE & EDUCATION

Within recommended light levels. Below ASHRAE 90.1-2013 lighting power density, space-by-space requirements.

LCV HL AVERAGE FOOTCANDLES 41fc
LCV HL LIGHTING POWER DENSITY 0.83 w/ft²

Three LED colors, five lumen packages and three driver selections make LCV easy to work with. See ordering guide below.

PRODUCT AVAILABILITY

LED Lumen Package	Nominal Lumens	Nominal Watts	Lumens/Watt
VW	3200	27	119
LW	4200	38	111
ML	5200	47	111
HL	6200	54	115
VL	7500	61	123

Information above is nominal and varies based on actual configurations ordered. Please see photometric tests at www.aleralighting.com for details.

		2765T	2700K-6500K SpectraSync™ Tunable White								
ROW LENGTH		LED LUMEN PACKAGE		MOUNTING METHOD		DRIVER		OPTIONS			
4	4' Single	VW	Very Low Watt	FCM	Fixed Cable Mount	E	Fixed Output	DC	Dust Cover ⁴		
8	8' Single	LW	Low Watt	CM	Adjustable Aircraft Cable Mount	ED	0-10V 1% Dimming 6	SCE	Sculpted End Cap (5 1/8") ⁴		
12	12' Single	ML	Medium Lumen					BN	Bull Nose End Cap (5 1/8") ⁴		
—	Indicate row length over 12' in 4' increments	HL	High Lumen					ELL10	Emergency Battery Pack Installed ¹		
Note: Rows over 12' will be configured by Alera. Example: 16' will be (2) 8'. Alternate configurations: contact factory.		VL	Very High Lumen					ELL10ST	Emergency Battery Pack, Self Testing, Installed ¹		
								EMC	One Emergency Circuit ^{2,3}		
								NLC	Night Light Circuit ^{2,3}		
								GTD	Generator Transfer Device ²		
								GLR	Fast Blow Fuse		
								TBAR	T-Bar Mounting		
								DS_	Integral Daylight Sensor ^{2,5}		
								OS_	Integral Occupancy Sensor ^{2,5}		
								NX_	NX Distributed Intelligence ^{1,4}		
								SLC	Sloped Ceiling Coupler (45' swivel from vertical)		
								A/B	A/B Circuitry		

¹ For additional, specify quantity before nomenclature (Example: 2ELL10).

² Not available with all configurations; some limitations apply.

³ One feed drop per EMC or NLC. Contact factory for through wiring.

⁴ Ships separately.

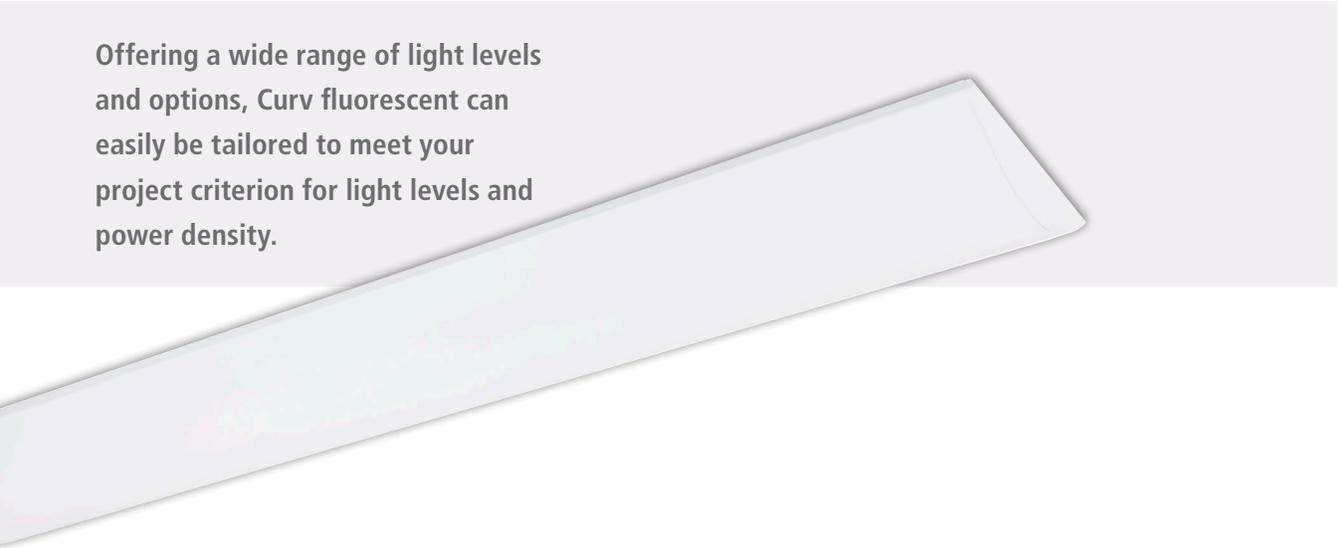

⁵ See Sensor Options Guide for details on integral occupancy and daylight sensors.

⁶ 5% dimming minimum when SpectraSync selected.

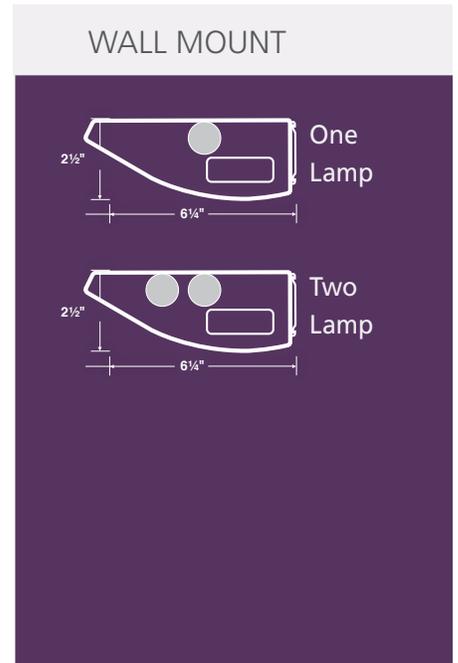

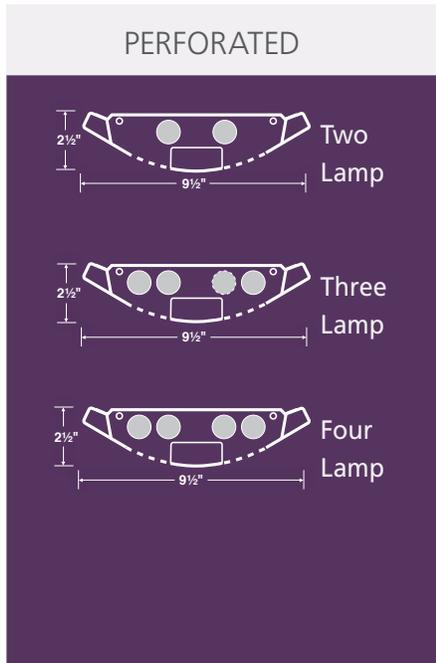

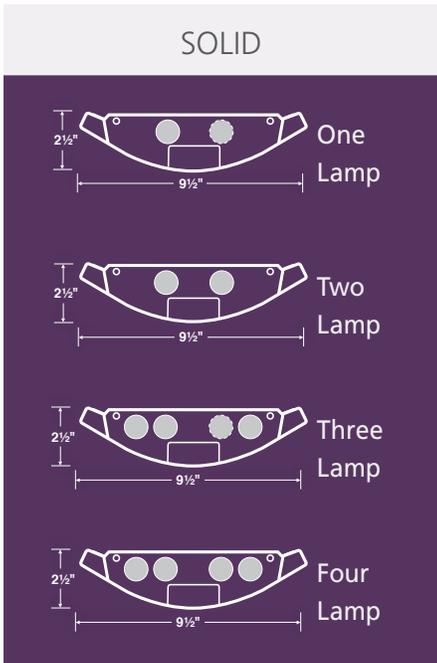

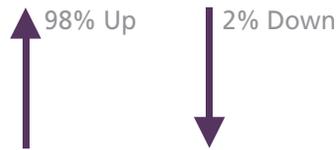

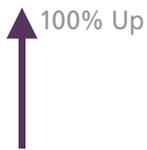

CURV INDIRECT LIGHTING FLUORESCENT

Offering a wide range of light levels and options, Curv fluorescent can easily be tailored to meet your project criterion for light levels and power density.
