

4300 Sign/Wall Lighter

With LED PicoPrism™ Technology

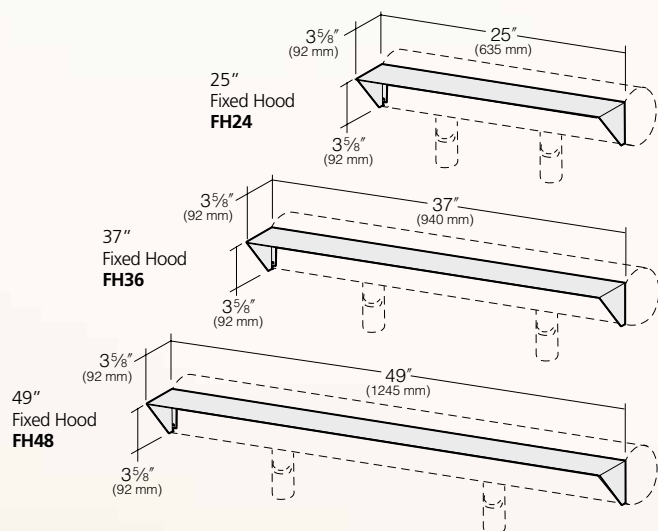

4300 Sign/Wall Lighter LED

Kim Lighting's 4300 Sign/wall Lighter with PicoPrism™ optics, produces clean smooth illumination for sign lighting or wall wash applications while avoiding hot spots and dark areas. Its compact size makes it easy to conceal behind plants and shrubbery, while offering the latest in LED technology and energy efficiency.

Features and Benefits:

- Utilizes Kim Lighting's LED PicoPrism technology
- Three sizes: 25", 37" and 49"
- Three standard color temperatures: 3000K, 4200K and 5100K
- 0-10V dimming standard
- 700mA, up to 4303 lumens
- Field-upgrade kits available for existing installations
- Meets California Title 24 and ASHRAE regulations for energy efficiency
- DLC certified
- Optional fixed hood to reduce light trespass
