

# Hot Stick Type Cable Cutter

## Product application

Used for cutting insulated wires in high voltage overhead distribution lines

## Feature

- Approx. 2.5 kg. Roughly 50% lighter in weight than a hydraulic-type cutter.
- You can easily handle the cutter, and manually cut many types of cables. Annealed copper wires. Hard copper wires and ACSR wires with a single reinforced steel wire.
- Blade sharpness makes a sharp cut face of cable with less deformation.
- Can be mounted on manual or electric sticks
