

Ultra-flexible
compact design

Pad Mount Deadfront
Primary Metering Gear

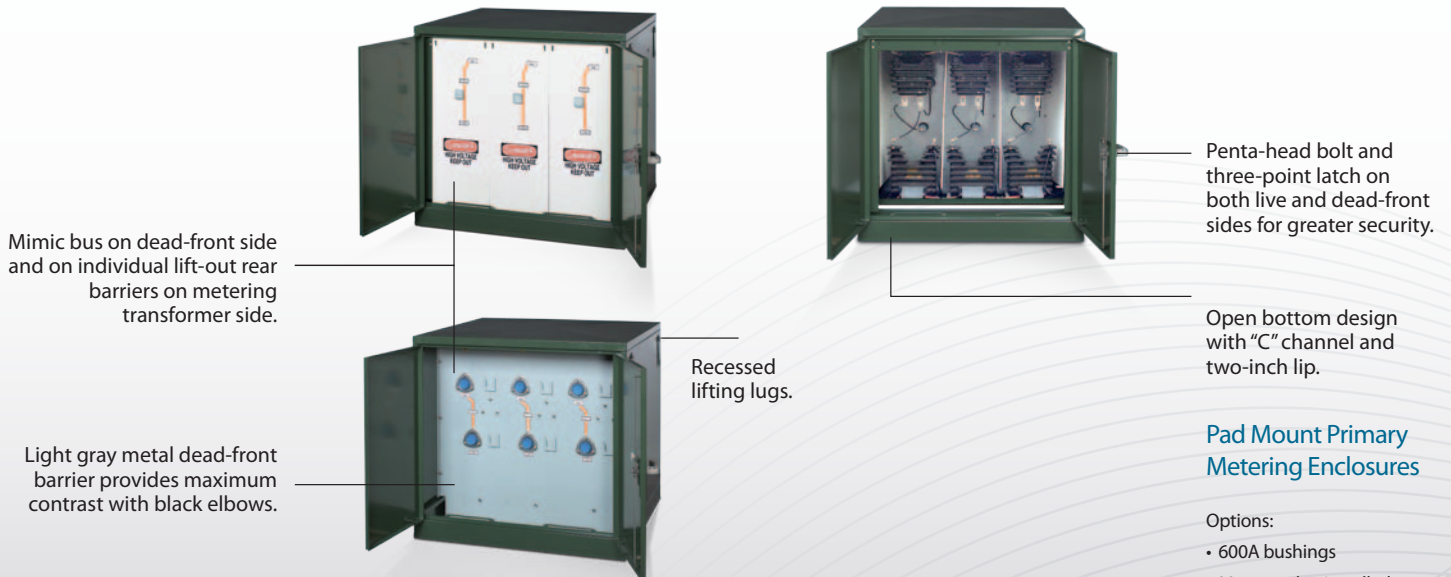

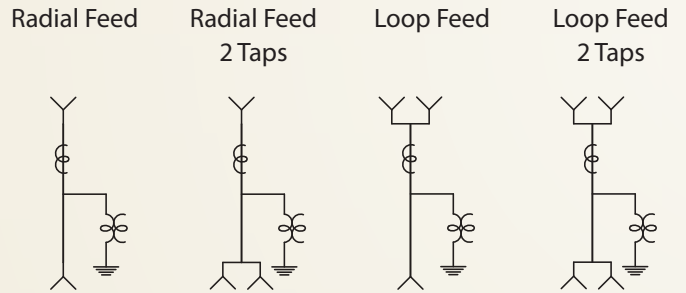

Grounding provisions.

- Meets all current ANSI standards.
- All manufacturers' outdoor PTs and CTs can be supplied via use of universal mountings.
- Powder finish exceeds ANSI C57.12.28 requirements; Munsell green (7GY 3.29/1.5) to blend with surroundings.
- Phase isolated design with white electrical grade fiberglass barriers for ease of operation.
- Stainless steel hinges and hardware for long operational life.

Primary metering gear provides a safe, convenient means to meter primary voltages from 15-35kV. Single- or three-phase units are supplied completely assembled and wired, ready for installation. Available in loop or radial feed with 200A (standard) bushing wells or 600A (optional) bushings.
