

Fiberglass Crossarms

The support you need from the name you trust

Durable

Expect long-lasting performance with fiberglass crossarms that resist UV degradation, fire, rot, and insect damage.

Easy to Install

Simplify installation with lightweight composite crossarms that feature a center-mounted, brace-less design.

Multiple Styles

Choose from tangent and deadend styles in various standard lengths as well as custom sizes for your specific application.

Adaptable

The mounting bracket has multiple size bolt holes and a keyhole slot. Deadend styles also include double guy-mounting holes.

Hubbell Advantage

Manufactured in-house at our Centralia, Missouri facility using a tried-and-true pultrusion process and strength tested for quality assurance. Freight consolidation is available for customers ordering multiple Hubbell products.

Strong

Welded construction and a galvanized mounting bracket offer solid foundational support, and a stamped steel galvanized square washer design helps evenly distribute the load.

Fiberglass Crossarms

Tangent Style Crossarm

Deadend Style Crossarm

Tangent Load Capacity Comparison Per Wire

No. of Wires	Length	Tangent 22	Tangent 20	Tangent 25	Tangent 30
4-Wire	96"	2,250 LBS	3,500 LBS	3,500 LBS	5,000 LBS
6-Wire	96"	1,500 LBS	2,250 LBS	2,250 LBS	3,250 LBS
4-Wire	120"	2,250 LBS	3,375 LBS	3,500 LBS	5,000 LBS
6-Wire	120"	1,500 LBS	2,250 LBS	2,250 LBS	3,250 LBS
4-Wire	144"	N/A	3,250 LBS	3,500 LBS	5,000 LBS
6-Wire	144"	N/A	2,150 LBS	2,250 LBS	3,250 LBS

Deadend Load Capacity Comparison Per Wire

No. of Wires	Length	Deadend 20	Deadend 25
2-Wire	96"	7,500 LBS	8,125 LBS
3-Wire	96"	7,500 LBS	8,125 LBS
4-Wire	96"	5,500 LBS	6,000 LBS
2-Wire	120"	7,500 LBS	8,100 LBS
4-Wire	120"	5,500 LBS	6,000 LBS
2-Wire	144"	N/A	6,525 LBS
4-Wire	144"	N/A	4,500 LBS

Fiberglass Series 20 Deadends

- MATERIAL: Arm:** Fiberglass tube filled with closed cell foam mounting bracket & **Hardware:** Galvanized steel
- COLOR:** Gray (brown optional) painted with UV inhibitor paint
- 5/8" hardware includes 8" DA bolt, custom washer, lockwasher, and eye nut
- All crossarm holes come standard with sleeves installed
- RECOMMENDED HARDWARE TORQUE:** 250 in-lbs
- HOLES AVAILABLE IN OPTIONAL SIZES DEPENDING ON CATALOG NUMBER:**
 "CDA": 5/8" hardware
 "CDF": 3/4" hardware
- Two hole guy attachment for 7/8" guying hardware. Ultimate guy load 30,000 lbs per attachment.
- For a complete list of options see Smart Numbering System

Hubbell crossarms come pre-drilled with standard or custom drill patterns of your choice for easy installation. Each drill hole is sleeved with an insert to offer torque protection when installing hardware. See part numbering system for a list of standard drill patterns or consult customer service for customs.

Field drilling is also acceptable as needed.

Suggestions for field drilling:

- Use a carbide tip bit
- Measure hole spacing at least 4" from outer edge, drill slowly and straight
- Recommended hardware torque: 250 IN-LBS
- Consider using washers that extend the width of the arm (4"x4") to offer additional support
- Press fit sleeves for added crushing protection are available upon request, however they are not necessary due to the moisture protection our closed cell foam offers
