

Puck LED

The HIDE-a-LITE™ Puck LED provides an ideal solution for many applications. The low profile design provides versatility to allow installations inside a cabinet, under a cabinet and above a cabinet to provide up light. The HIDE-a-LITE™ Puck LED offers a quick and simple mounting installation and SPT-2 wire can be used for direct wiring. Energy Star Listed and meets CA T24 JA8-2016 requirements. The HIDE-a-LITE™ Pucks LED can be dimmed down to 10% with many Forward Phase (Triac) and Electronic Low Voltage (ELV) dimmers.

HIDE a LITE™
