# Kellems® Wire Management Products

## **Cable Splicing Grips**

Splicing Grips are made of galvanized steel in double weave mesh construction. They are available in various lengths and sizes to suit most applications.

#### **IMPORTANT:**

Read all breaking strength, safety and technical data relating to this product.

Refer to pages W-17 and W-18.

#### **Benefits**

- Easily installed or removed
- Galvanized steel construction for strength
- Flexible to follow cable path

#### **Application**

Splicing Grips are used as a temporary splice for rope, cable or wire rope. They can also be used as cable reinforcement and can act as a shield to protect cables and hoses from abrasion.

#### **Junior Splicing Grips, Single Weave**

Junior Splicing Grips are made of galvanized steel and are designed for use in very light duty and small splicing jobs.

## **Benefits**

- Easily installed or removed
- Galvanized steel construction for strength
- Flexible to follow cable path

#### **Junior Tube**

| Cable Diameter Range<br>Inches (cm) | Approx. Breaking<br>Strength Lbs. | Working<br>Load Lbs. | Length @ Nom<br>Diameter Inches (cm) | Catalog Number |
