### Overview

This is a quick installation guide on how to install the ATS-COV-SLIP-992-AP45. The installation goes over the steps of putting the slipcover over the AP. Please read the entire guide before beginning.

### Installation Safety

The installation of this slipcover may require a person to lift weight at significant heights. Be sure to use all proper personal equipment (PPE) and designate a work area during installation.

### Parts Needed

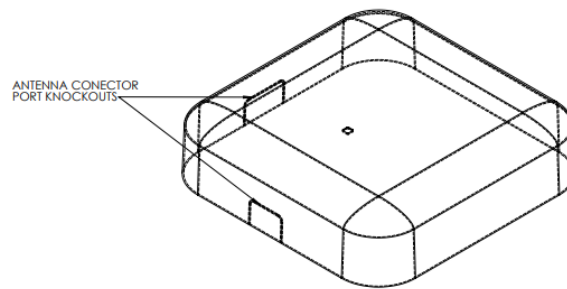

- (1) ATS-COV-SLIP-992-AP45
- (1) MIST AP45/45e (Not Provided)

## Installation

### *Directions*

1. Remove the slipcover from its package and make sure the Access Point mounting surface is clean. Remove the tape covering from the 4 strips of Velcro and slip the cover over the Access Point making sure the Access Point Connector Port Knockouts line up with the Access Point's ethernet and USB ports.
