

Porcelain Pin Type Insulators

Another option for your distribution needs

Top Ties

Top Ties are designed to provide a uniform, resistive conductive attachment of covered conductors to pin type insulators in top tie applications.

Pin Type Insulators

- Single piece design
- Compact design
- Available through the distribution center
- Tested to industry standard

Insulator Pins

Insulator pins are used to support pin type insulator with the internal thread mounted on crossarms.

Part Number	ANSI C29.5 Class	Neck Type
PSPT552	55-2	C
PSPT553	55-3	C
PSPT554	55-4	F
PSPT555	55-5	F
PSPT556	55-6	J
PSPT557	55-7	J

**Contact your Hubbell sales representative for more information
and to inquire about pin type insulators for ANSI C29.6.**
