

HUBBELL Premise Wiring

MPTL Assembly with Cobra-Lock™ Termination

Buildings are getting more intelligent. Links terminated with modular plugs help accelerate integration of APs, cameras, and other building systems to the IP network.

Hubbell's versatile MPTL assembly with Cobra-Lock termination was designed to tackle all direct-attach applications. The compact coupler provides fast, reliable, and secure installation. Perfect for applications with limited space which can't accept traditional field terminating plugs. Terminate and ensure integrity without special tools.

Test to MPTL limits and submit results to qualify for our comprehensive 25-year Mission Critical application assurance warranty.

Features:

- Bootless plug for AP and camera applications with limited space
- C6A shielded performance for full backward compatibility and use with unshielded and shielded applications
- Secure anywhere with unique mounting clip, included
- Easy to re-terminate
- Non-terminated option for extending horizontal runs
- Verified to Cat6A MPTL limits
- Wires secured under constant pressure
- Plenum rated and UL Listed

Applications:

- Security cameras
- APs
- PoE lighting
- POS terminals
- Building automation systems
- AV over IP
- Industrial automation
