Wiring Device-Kellems

ASPIKESHIELD®

Surge Protective Devices

UL1449 4th Edition

Panel Surge Products

Surge Strip Products

Surge Receptacles

Type 1, 2, and 3 surge protective devices

Hubbell offers a comprehensive selection of surge protective devices (SPDs), including type 1 and type 2 SpikeShield™ SPDs, as well as type 3 SPDs like receptacles and surge strips. Install SPDs on the line side (type 1), load side (type 2), or point-of-use (type 3) to safely limit and divert surge currents or transient voltages.

Cascading approach ensures protection at multiple levels

Our full line of SPDs provides a cascading approach from the service entrance (Type 1) to the branch panel (Type 2) and point-of-use (Type 3). This approach protects buildings and residents and also meets National Electric Code (NEC) requirements, which requires that all dwelling units be provided with a SPD.

Reliable protection across industries

Our SPDs keep users, residents, and electronics safe from power surges in commercial, residential, industrial, and institutional environments, from computer labs and classrooms to data centers and manufacturing facilities.

Commercial

Hospitality

Computer Labs

Healthcare

Data Centers

Schools and Universities

Panel Surge Products

The SpikeShield® line of panel surge protective devices offers a broad selection of products to meet the many requirements of industrial, commercial, institutional, and residential applications. Hubbell provides a complete offering of high quality panel surge products.

- All Type 1 and Type 2 panel surge products are UL1449 fourth edition listed.
- Protection levels from 50 kA to 300 kA to handle all real world surge events.
- 150 and 300 kA versions feature options with or without a disconnect switch. 132kA unit is available in a steel or non-metallic enclosure.
- Ideal for protecting variable speed drives or other sensitive equipment on the plant floor.

Surge Strip Products

Hubbell SpikeShield surge strip devices feature a wide range of products to handle every application or need.

- Hubbell offers the industry's first UL2930 listed HCOA for patient care areas.
- Two USB ports in our four outlet model are ideal for charging devices.
- Yellow high visibility units are ideal for protecting sensitive equipment in areas that require a more robust surge strip.

Surge Receptacles

Hubbell offers a broad range of SPD receptacles with two 22mm square MOVs that provide 240 joules of surge protection for each mode.

Service/Branch Panel Protection

Type 1 SPD

Type 1 SPDs can be used in Type 2 applications as well (Type 2 rated devices cannot be used ahead of the branch panel in a Type 1 location).

300,000 and 150,000 Peak Amp Capacity

- Surge counter included in all units
- NEMA 1 enclosure
- LED and audible alarm status indicator
- UL1449 4th edition
- Versions with a disconnect also include a surge counter

132,000 Peak Amp Capacity

- Protect branch panels, safety switches and load centers
- NEMA 3R enclosure
- LED and audible alarm status indicator
- UL1449 4th edition
- Available in steel or non-metallic enclosure

105,000 Peak Amp Capacity

- Listed to UL1449 4th edition
- Ideal for areas where space is a major consideration
- Short circuit current rating (SCCR) of 150kA and nominal discharge current (In) of 20 kA

50,000 Peak Amp Capacity

- Surge arrestors are a low cost solution that may be installed on the line side or load side of the service entrance
- Great design for line or load side in restricted spaces
- 150kA SCCR rating, UL1449 4th edition

SpikeShield® Surge Strips

Type 3 SPD

Healthcare Outlet Assembly (HCOA)

Hubbell's UL2930 HCOAs are the industry's first UL listed product for patient care areas. The product is available with or without L-N surge protection.

Housing Design

- 15A and 20A 125V versions
- Surge protected models in all configurations
- Non-surge protected RPT models in all configurations

Safety

- Tamper-resistant flip covers
- Green LED indicates surge protection working
- Hospital grade receptacles featuring industry best tamper resistant shutter design

Cord

- 6 ft. or 15 ft. cord length
- 12/3 AWG cord on 15A and 20A models
- 45° angle plug (15A series) or 90° angle plug (20A series)

Contacts

- Equipment grounding terminal

SPD with Tamper Resistant Receptacles and Heavy Duty Plug

- Heavy duty metal housing
- cULus 1449 4th Edition

Hospital Grade:

- Hospital grade tamper-resistant receptacles with a hospital grade plug
- Available with a 2-port USB charging outlet

Industrial Grade:

- Tamper resistant receptacles with a heavy duty plug
- UL1363

Non-Metallic Surge Strips

- Transformer spaced outlet(s)
- 15A resetable push on/off circuit breaker switch
- Power and ground indicating LEDs

High Visibility Yellow Surge Strips

- Metal housing with wire management and a six foot cord
- Three transformer spaced outlets (two on six outlet model)
- 350 joules/6.5kA rating

Surge Strip with USB Ports

- Two USB ports for charging electronic devices and four transformer spaced outlets
- Black non-metallic housing with six foot cord and lighted power on switch
- Power and ground indicating LEDs
- Features 90° Angle Plug
- 1050 joules/19.5kA rating

SpikeShield® Surge Receptacles

Type 3 SPD

- Audible alarm provides notification of surge protection loss.
- Muting screw allows user to turn alarm off once replacement has been scheduled
- Distinctive surge symbol provides quick visual identification of surge suppression receptacle
- Available in hospital grade and specification grade
- Meets UL Standards UL1449 4th Edition and UL498

SNAPConnect® Tamper Resistant Receptacles

- Attractive flush fit
- Shallow box depth means more room for wiring
- Meets NEC® code for tamper resistant
- Eliminates exposed live terminals on the device

Protection

- Offers 240 joules of protection and 15 kA peak current rating
- Surge protection LED indicator flashes when surge protection is lost

Installation

- SNAPConnect® devices reduce labor time during installation and when being serviced in the future
- Connectors available with solid or stranded leads
- Custom length leads available
- Push on wire option also available on SNAPConnectors

Screw Termination Receptacles

- Power-on indicator light

Specification Grade Duplex Receptacles

- Available in 4-PLEX®

Isolated Ground Duplex Receptacles

- IG triangle on the face of the receptacle clearly indicates isolated ground device on the face of the receptacle
- A clean path provides a clean ground for sensitive equipment
