The HUBBCOM™ IP device has a multi-functional design that will provide solutions for all your control and communication needs. It provides the ability to combine web application control, VoIP SIP telephone operation, overhead speaker broadcasts, and point-to-point serverless IP communication (audio and/or video).

Whether a warehouse, a manufacturing facility, an educational facility (classroom or campus), an office, or a bus or rail platform, HUBBCOM™ device is a solution that understands the way you work and conforms to your needs.
Specifications

Electrical /Network
Network Power .......................................................... PoE / PoE+, 802.3af compliant (via RJ45)
Local Power Requirements ........................................... 24 V dc
(a separate, isolated power supply must be provided for each unit)
Network ......................................................... 10/100/1000 BaseT
Call Control Signaling (telephone operation), (option) .................. SIP (RFC3261 compliant)
Handset ............................................................. 6-ft. PVC Cord, Noise-cancelling microphone
WiFi (option) ....................................................... 802.11 a/b/g/n + MIMO
Bluetooth (option) ................................................ Version 4.1 + CSA2 support/Bluetooth

Audio
Integral Speaker ......................................................... 8 Ohm, 2 watt
Internal Speaker Output ............................................. 8 Ohm, 8 watt maximum

Mechanical Control
Configurable Inputs (volt-free) ........................................ 2
Configurable Outputs ..................................................... 2 (125 mA max.)

Electronic Control/Input
Touchscreen ............................................................. 7-inch Capacitive

Mechanical/Environment
Operating Temperature Range ...................................... 0° C to 50° C
Relative Humidity ....................................................... up to 95%, non-condensing
Construction:
   Housing and Front Panel ........................................... Gray ABS Plastic
   Flush-mount Back Box ............................................. 16-gauge cold-rolled steel with black polyurethane finish
Dimensions:
   Model GSC1100 (handset on hook) ................................ 10.2 W x 8.3 H x 3.4 D inches; (260 W x 210 H x 86 mm)
   Model GSC2100 ....................................................... 7.7 W x 10.2 H x 2.1 D inches; (195.4 W x 258.9 H x 53.9 mm)
   Model GSC3100 (handset on hook) ................................ 10.0 W x 12.0 H x 4.2 D inches; (254.0 W x 304.8 H x 106.3 D mm)
   Model GSC4100 ....................................................... 10.0 W x 12.0 H x 2.8 D inches; (254.0 W x 304.8 H x 69.7 D mm)
   Panel Cutout (GSC3100/GSC4100) .............................. 10.1 H x 8.4 W x 2.4 D inches; (255.6 W x 241.1 H x 60.5 D mm)
Weight:
   Model GSC1100/GSC2100 .......................................... 3.0 lbs
   Model GSC3100/GSC4100 .......................................... 5.0 lbs

Approvals Standards
Compliance to Standards (See Quick Guide 42004-532QG) ............. FCC CFR 47 Part 15
