# Testimonials

See what people have been saying about Hubbell Lighting.

”

*“The new lighting has created an environment that will inspire the clients who visit our showroom, allow our employees to be more productive and improve our bottom line. We operate in a competitive marketplace, and I believe hosting an exceptional experience for customers in our showroom provides us with a competitive advantage.”*

**David Epstein**

*President, Southern Components, Inc.*

”

*“The team at LP LED partnered with us to develop a [Hubbell Lighting based] lighting solution that accomplished our expectations and requirements for the LEED Certification v.4. They identified products that were ideal for the applications, met the targeted specs and ensured that customers and employees in the store would enjoy a safe, comfortable shopping experience.”*

**Juan Carlos Gonzales**

*Project Manager, Makro*

”

*“The attributes of Prescolite’s A2LED and D2LED presented the team with options that other products at the time were not able to offer. The small apertures and degree of adjustability all worked in our favor to complement the complex geometries of the architecture while at the same time minimizing glare and delivering comfortable light levels throughout. The finished product is stunning.”*

**Scott Baillie-Hinojosa**

*Tillotson Design*

”

*“It’s been great to see the renewed energy on the manufacturing floor. Employees are positive, excited and emotionally enthusiastic because of the brighter environment. Management is thrilled with the impact the lighting has had on worker safety, the balance sheet and our broader sustainability goals.”*

**Geof Knutsen**

*Maintenance & Facility Supervising Electrician,  
The Greenbrier Companies*

”

*“With the ArcheType X we have a LED luminaire that blends in perfectly with the aesthetics of the designed space, is more energy efficient than our legacy fixtures, has decreased our need for on-going maintenance and, most importantly, improved the quality of light in the space for our members and staff. We’ve got the best, most efficient lighting where we need it, when we need it.”*

**Jason Sentes**

*CEO, 1st Choice Savings & Credit Union*

”

*“The lighting solution had to meet the community requirements for design aesthetics and accommodate the preferences of neighbors on the residential border. The performance of the Kick was a key component to Kiddie Academy securing zoning approval, specifically due to its high marks for backlight, uplight, glare performance and stylish design. The overall outcome has been a tremendous success.”*

**Eugene Thompson**

*Founder and President, Ionic DeZign Studio*

# Industry Leading Product Lines

The product lines we offer our customers reflect the value, integrity and quality of our business. Hubbell Lighting encompasses the most prestigious portfolio of brand names in the lighting industry with leading positions in architectural, commercial and industrial markets.

Architectural outdoor lighting including decorative site and area lighting, floodlights, step lights, wall sconces, bollards and poles in both period and contemporary designs.

Energy efficient LED decorative commercial outdoor lighting, decorative poles, arms, post-top and site furnishings.

Commercial and industrial parabolic troffers, lensed troffers, recessed/indirects, industrials, strips, wraps, linear high bays and Chicago Plenum options.

Commercial and light industrial life safety products including emergency lighting units, exit signs, remote lighting heads and combination emergency lighting.

Broad life safety product offering includes emergency units, LED battery packs, exit signs, inverters and Chicago approved options.

Distributed and centralized, wired and wireless systems, luminaire integrated sensors, color tuning controls, panels, occupancy sensors, photocell sensors, and emergency relays.

Full line of area, wall mount, overhead ceiling and floodlight commercial luminaires for perimeter, facade, roadway and security lighting applications serving the commercial market.

High performance outdoor architectural roadway, pedestrian, low-level, building mounted and landscape luminaires and poles.

Architectural lighting solutions characterized by visual aesthetics, photometric performance and mechanical design.

Linear architectural pendant, surface, wall mounted, perimeter and recessed lighting luminaires for commercial and institutional buildings.

Full line of recessed downlights, track lighting, surface and pendant mounted lighting equipment for residential, commercial, architectural and institutional applications.

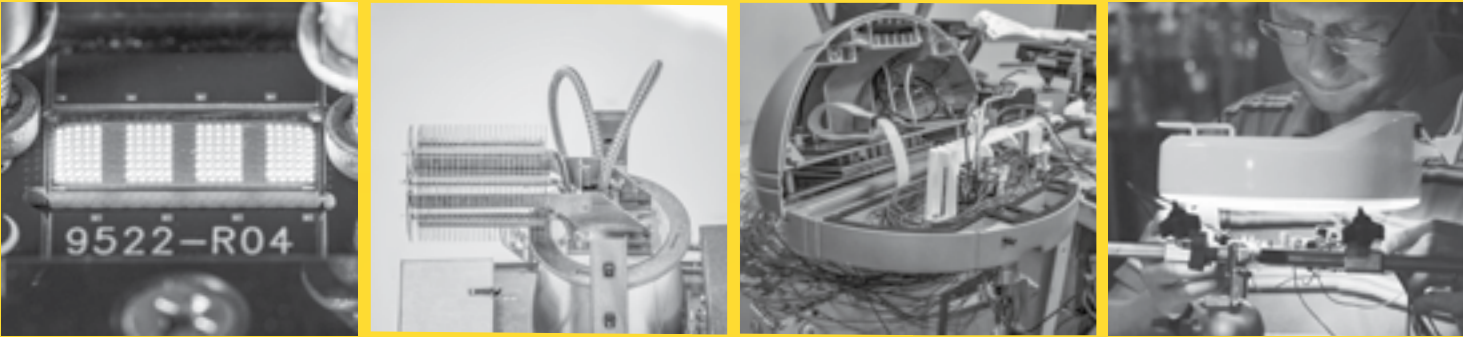

# Innovative Product Leadership

Hubbell Lighting’s market-driven strategies and customer centric approach result in our leading edge lighting and control solutions. Our vertically integrated process starts with extensive research and development and innovative engineering design. A focus on operational excellence and quality control assuring the highest quality, value and performance.

## Product Development

Focused end-to-end solutions starting with technical innovation through R&D, engineering design and operational excellence resulting in the most reliable and industry leading performance.

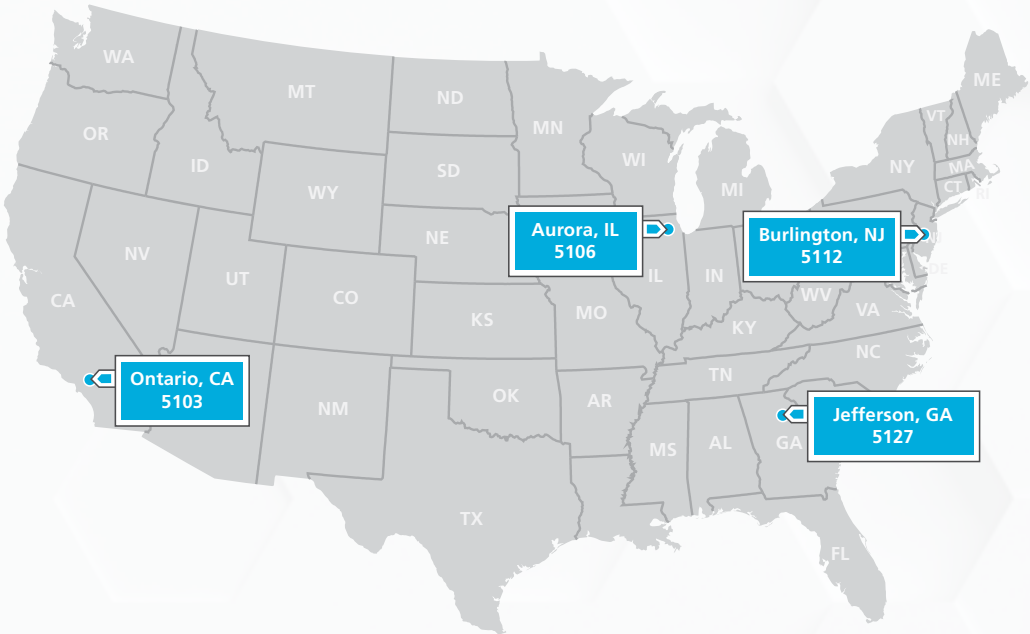

## Award Winning Products

The fast-evolving technology landscape is fundamentally changing the lighting marketplace. Hubbell Lighting’s investment in solid-state lighting luminaires and controls is helping to create the next generation of innovative new products. The benefit of our technical expertise is seen through our award-winning portfolio of products that help your customers save money, reduce maintenance costs and improve our environment.

# Ease of Doing Business

Hubbell Lighting’s service commitments, online tools, best-in-class customer support and easy-to-do-business terms and conditions are all designed to keep you focused on growing your business.

**Local Distribution STOCK**  
Strategically placed **Regional Distribution Centers (RDC)** are stocked with inventory customized to meet each local market’s unique needs. Real time inventory status is available online at [HubbellLighting.com](http://HubbellLighting.com).

**Quick-Ship QS QS**  
For made-to-order products with abbreviated lead times, our **Quick-Ship** programs feature a collection of products available in as little as five days. For the full offering of Quick-Ship products please visit [HubbellLighting.com](http://HubbellLighting.com) and look for Quick-Ship under Resources.

**Trusted Certifications**  
Our partnerships with ENERGY STAR® and The DesignLights Consortium® (DLC) assure our products are designated to meet and exceed industry specifications.

# Tools for Growth

Hubbell Lighting equips you with tools to strengthen your business and promote success. From application design software to financing, Hubbell Lighting is focused on delivering the support you need.

From lighting layouts to BIM drawings, we are the lighting design experts. **LitePro DLX** application design software allows you to create design proposals in a flexible, comprehensive and visually stunning fashion. To get started, look for LitePro DLX Design Software under Resources at [HubbellLighting.com](http://HubbellLighting.com).

Rendering from LitePro DLX 3D of finished space

Whether you're on the road or at the computer, you can find the latest Hubbell Lighting product information including specification sheets, photometry, brochures and videos at [HubbellLighting.com](http://HubbellLighting.com).

## \$ REBATE SEARCH

Get access to the latest data from over 3,000 utility programs across North America. Using products that are DesignLights Consortium® Qualified Product Listing can save money. This tool makes it easy to find incentives offered by some utilities for using these products - doing the work for you! Find thousands of real-time rebates of DLC® qualified Hubbell Lighting products.

## createchange®

createchange® is a comprehensive collection of resources, tools and product solutions designed to help you maximize energy savings while improving the quality of lighting. Whether you are completing a retrofit and upgrading inefficient lighting systems or starting from the beginning, Hubbell Lighting's financing and createchange resources help remove the barriers to finding the full solution for your space.

## CASH FLOW POSITIVE CF+

Taking advantage of the money-saving opportunities of a lighting retrofit has never been easier with the Cash Flow Positive program from Hubbell Lighting. With a simple one-page approval process, Hubbell Lighting can fund your entire lighting upgrade including labor, while in many cases still providing a positive cash flow from day one!

## Compare IN THE AIR

Are you ready to createchange®?

Hubbell Lighting's Compare in the Air program can allow you to see results of a lighting retrofit or renovation real-time in your facility with no risk!

Grounded in serving our customers' needs, Hubbell Lighting understands there's no one size fits all solution, especially for unique applications, offering lighting and control solutions that span the full spectrum for new construction and retrofit projects.

## 4 EASY STEPS

- STEP 1 - SELECT QUALIFIED PRODUCT(S) FOR TRIAL
- STEP 2 - ORDER UP TO 4 FIXTURES AND MARK ORDER "COMPARE IN THE AIR"<sup>1</sup>
- STEP 3 - RECEIVE A 90-DAY DATING TERMS ON YOUR ORDER
- STEP 4 - INSTALL THE PRODUCTS AND SEE THE RESULTS<sup>2,3</sup>

Contact your local Hubbell Lighting sales representative today to get started!

- 1 Maximum order quantity of 4 units total. Order can consist of more than one product type.
- 2 Installation charges are the responsibility of the customer.
- 3 Freight charges for product(s) are the responsibility of the customer.

# LIGHTING Solutions Center

Hubbell Lighting offers an unprecedented opportunity to gain cutting-edge lighting education in an environment that brings today's most relevant lighting solutions to life. Our 25,000-square-foot Lighting Solutions Center, located at our Greenville, SC headquarters, is engineered to present a total solutions approach to current lighting challenges and will evolve to meet future lighting challenges head on.

## SPECTRA CLEAN™

What if you could utilize lighting to effectively and continuously disinfect your environment? Hubbell Lighting's SpectraClean™ luminaires provide continuous environmental disinfection as part of the lighting system. It automatically treats harmful microorganisms suspended in air, trapped on objects and residing on surfaces.

### CX Lighting Control Panels

The CX Commercial Lighting Control Panel is a self-contained lighting control system that replaces conventional time clock and contactor combinations with a labor saving, simple and flexible module solution. CX provides a reliable standalone relay control solution to reduce energy consumption for small and intermediate size projects that are cost sensitive.

Part #	Catalog #	UPC Code	Description	CA 03	GA 27	IL 06	NJ 12	Lbs. each

### NX Distributed Intelligence™ Lighting Controls

The NX Distributed Intelligence™ platform delivers a seamless lighting control solution for both indoor and outdoor spaces. NX is capable of scaling from standalone fixture and room control applications to networked building deployments. NX operates using wired, wireless and hybrid connectivity with native BACnet™ support.

### OMNI® Low Voltage Dual Technology Occupancy/Vacancy Ceiling Sensors

The OMNI Ceiling Mount Occupancy/Vacancy Sensor is designed for medium to large spaces with ceilings up to 12' in height. The sensor is available with Ultrasonic and Passive Infrared technology for unequalled motion detection. Embedded smart IntelliDAPT® technology eliminates false triggers. The sensor has 500-2,000 square foot coverage area, depending on the model.

Part #	Catalog #	UPC Code	Description	CA 03	GA 27	IL 06	NJ 12	Lbs. each

### Low Profile Passive Infrared Ceiling Sensor

The PIR10 uses passive infrared (PIR) technology to turn lighting on and off based on occupancy. Designed specifically for areas with long-range major-motion activity, the PIR10 provides a long-term trouble-free operation. The sensor design is both visually pleasing and physically compact.

Part #	Catalog #	UPC Code	Description	CA 03	GA 27	IL 06	NJ 12	Lbs. each
PIR10P	PIR10P	640181301154	Passive Infrared Line Voltage Ceiling Sensor			●		0.5

### WASP Fixture Sensor

The WASP Fixture Sensor is specifically designed for ON/OFF and 0-10V dimming control of high mount/low mount fixtures in warehouses, distribution centers and similar facilities. The sensor is available in end mount and surface mount versions. Also available in an IP65 version.

Part #	Catalog #	UPC Code	Description	CA 03	GA 27	IL 06	NJ 12	Lbs. each

LightHAWK® Wall Switch Sensors

LightHAWK sensors combine state-of-the-art technology to provide precise control of lighting loads within small to medium sized areas. With the choice of either Manual-ON (Vacancy Sensor) or Automatic-ON (Occupancy Sensor), these energy-saving sensors are designed to control a broad range of lighting fixtures and ensure that lights will turn OFF automatically when motion is no longer detected. All LightHAWK sensors are designed to fit in standard decorator style wall plates.

### LightOWL® Dual Technology Ultrasonic and PIR

The LightOWL® Ceiling and Wall Mount Sensors provide precise control of lighting within a broad range of commercial and industrial applications. The sensor automatically turns the lights on when occupant enters the room and off when the space is unoccupied. LightOWL® occupancy / vacancy sensors are an ideal solution for areas where traditional ceiling sensors are not suitable.

### Wallbox Devices

Hubbell Control Solutions Wallbox Devices include low voltage dimmer switches, momentary and latching switches, and digital timers making them the perfect solution for HCS low voltage occupancy sensors, daylighting controls and networked lighting control panels.

RATIO - RAR1

With a new spin on a classic rectilinear form, Ratio brings the traditional shoebox aesthetic into the next generation of LED lighting. Ratio features a dense optical array which provides reduced pixilation and increased visual comfort without compromising performance. Designed for sustained, long-term performance with advanced thermal management, an elegantly simple heat sink, and industry leading surge protection.

ALF6LU5KBZ	ALF-6LU-5K-BZ	785988019168	LED, Small, Die-Cast Aluminum, 70 CRI, 5000K, 1122 LMS, Knuckle Mount, Glass Lens, 6x5 Distribution, 0-10V Dimming, 120-277V, 10W, 6 LEDs, 110 LPW, Dark Bronze Textured, CSA	●		●	●	3.22

Mini Colt

Versatile compact LED floodlight perfect for a variety of applications including: landscape, accent, pole/ column, facade and small area illumination. Stake or threaded mounting plus adjustable knuckle provides mounting flexibility. Durable die-cast design with corrosion resistant powder coat paint finish for years of maintenance free illumination.

Part #	Catalog #	UPC Code	Description	CA 03	GA 27	IL 06	NJ 12	Lbs. each
MBUL1L3K1	MBUL-1L3K-1	785988031955	LED, Small, Die-Cast Aluminum, 83 CRI, 3000K, 1115 LMS, Knuckle Mount, Glass Lens, 6x6 Distribution, 0-10V Dimming, 120V, 13W, 1 LED, 84 LPW, Dark Bronze Textured, CSA	●		●	●	.5

Colt LBUL

Traditional landscape form with improved performance and efficacy, 1/2" x 14 NPS mount and adjustable knuckle for aiming. Features wide NEMA 6x6 distribution provides uniform lighting on surface. Durable die-cast design with corrosion resistant powder coat paint finish for years of maintenance free illumination.

RATIO - RFL2/RFL3

Compact LED flood with a variety of NEMA distribution for lighting applications such as safety/security, accent, flag pole, columns, or signs. The Ratio flood series was designed in cohesion with the site/area products to provide a sleek yet timeless product family to be used throughout a site. Ratio features a dense optical array which provides reduced pixelation and increased visual comfort without compromising performance.

### NRG® 4000 LED Lumasquare® Series

Designed for illumination of commercial indoor/outdoor lowbay applications including: mechanical rooms, retail, covered loading docks and utility areas. The LED luminaire provides a cost effective and capable lighting solution while saving energy and providing general illumination for commercial and residential applications.

NRG 300L

NRG 300L features a polycarbonate refractor that delivers 1500+ lumens at 4000K and 5000K and provides ambient lighting for safety and security to any facility. Vandal resistant design and vandal proof hardware make it perfect for non-supervised applications where energy savings, low maintenance and rugged construction are desired.

# ArcheType® X Advantage

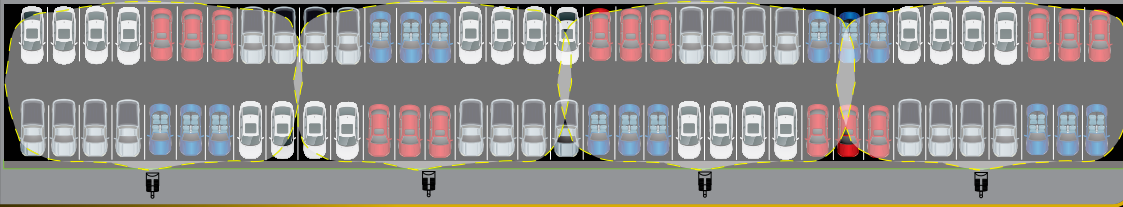

## Fewest Fixtures wins...

With ArcheType® X, not only do you get cost savings from improved efficiency and uniformity, there are thousands of dollars in savings per pole eliminated because of the reduced cost of trenching, wiring, controls, sensors, installation and maintenance.

Traditional Fixtures

Type X Fixtures

For the same size parking lot Type X requires only 4 fixtures.

## ARX09 - ArcheType® X Site/Area

ArcheTypeX unique optical system allows designers and specifiers to tailor-fit lighting to meet the unique illumination needs of a site. ArcheType X user-defined distributions are perfect for unusually shaped sites with hard to light corners.

EV Series

The EV Series is a compact architectural emergency lighting unit designed for fast wall mount installation and reliable service. The EV unit is available with or without remote capacity. The EV series includes the EVR – 2 head LED indoor remote, and the EVO – single or double-head outdoor remote as an accessory.

LM Series

Commercial/Industrial High-Capacity Emergency Lighting Units. Corrosion-resistant, rugged metal units featuring fully adjustable lighting heads and easy installation. Most models have additional battery capacity for powering remote fixtures or extended run times. Available in standard and damp location models. Lead Calcium Battery Battery, UL 924, UL 924 Damp.

Obsidian™

The Obsidian Message Sign provides a reliable method to communicate critical messaging. The high contrast face panel clearly communicates the message in highly visible red or green letters when the sign is energized. In the off condition, the face becomes black without any message bleed through - eliminating any confusion.

ACCESSORIES (ORDER SEPARATELY)

URK Universal rough-in kit

URK2C Universal 2-circuit rough-in kit<sup>a,b,c</sup>

<sup>a</sup>For use with AC models only.

<sup>b</sup>Rough-in kit may not be ordered separately on models specified with -24K option.

<sup>c</sup>Must be ordered in conjunction with -2C option on exit sign

To Order Rough-In Kit Separately

To order rough-in kit only for field installation, add "-XK" option suffix to exit model number and order "URK" or "URK2C" kit separately.

<sup>1</sup>For use with emergency models only.

<sup>2</sup>For use with AC models only.

<sup>3</sup>Operates with 24-volt AC or DC fire alarm panels.

<sup>4</sup>For emergency illumination of sign from remote 6-24VDC power sources.

<sup>5</sup>DC option may not be specified with -2C or -FAP options.

<sup>6</sup>AF, -FM and -FAP options may not be specified together.

<sup>7</sup>Allows ordering of rough-in kit separately for recessed mount (LE) models.

See "Accessories".

<sup>8</sup>For use with single face models only. Standard on double face models.

<sup>9</sup>Rough-in kit may not be ordered separately on models specified with -24K option.

<sup>10</sup>LE exit models with 8" plaques registered under NY-BEC Calendar number 42135 for use in New York City.

<sup>11</sup>Single face LE exit signs specified with the -8L option are supplied without backgrounds. Double face models specified with the -8L option are supplied with mirror backgrounds.
