

Hazardous-rated seal-off fittings in expanded trade sizes and with improved design

New look, same reliability

ENY series for horizontal and vertical installations

- **Expanded trade sizes now up to 4"**
- Minimal turn radius for optimal spacing of both enclosures and conduit
- Large openings for ease of access to conductors for proper dam installation
- Engineered to latest 419 hub specifications for superior continuity and ingress protection
- Integral bushing to protect conductors during installation
- Available in both aluminum and plated iron

Applications

- Use in hazardous conduit runs
- Transition from classified to non-classified areas
- Minimize the passage of hazardous gases
