# netSELECT®

The netSELECT® Category 6 system provides a channel compliant solution that is perfect for residential and light commercial applications where cost efficiency is a priority. The netSELECT solution incorporates all the product quality you expect from Hubbell while providing installer friendly features that enhance installation speed. netSELECT jacks utilize Hubbell's Quicklace termination process and exclusive 1-punch tool to deliver the fastest, most consistent termination in the structured cabling industry. This innovative process reduces termination time by 75% and provides a consistent termination every time.

netSELECT provides a dependable, flexible and compliant system that can accommodate all of today's fast changing requirements.

### STANDARDS

- ANSI/TIA-568.2-D Category 6 channel
- cULus Listed plates, jacks and cable
- RoHS compliant

## Perfect solution for quick, easy, dependable installs | Installer focused designs prioritize efficiency and reliability | High value with high performance

### PATCH CORDS

- Slim, snagless boot for high density ports
- PoE ready
- Conductor: 24AWG pure copper UTP
- Jacket: Flame-retardant PVC-CM rated

### MULTIMEDIA FACEPLATES

- Smooth profile that matches electrical plates
- High impact-resistant thermoplastic construction
- Accepts all Hubbell keystone mount jacks

### DECORATOR FRAMES

- Elongated strap for better wall box mounting
- High impact-resistant thermoplastic construction
- Accepts all Hubbell keystone mount jacks

### CABLE

- TIA and ISO standards compliant
- 23AWG solid copper UTP
- Category 6 channel performance with netSELECT jacks and patch cords

### JACKS

- Supports Gigabit Ethernet
- Usable bandwidth meets TIA channel specifications
- Exclusive 1-punch tool delivers fastest and most consistent termination in the industry
- Compatible with all Hubbell keystone plates, frames and delivery products

### PATCH PANELS

- Jack panel provides flexibility and expandability
- Steel frame with silk screened label fields
- Durable black powder coat finish
- Includes cable management bar and wire ties

## netSELECT® Category 6 Jacks
