Products for your Home

Hubbell tradeSELECT[®] and netSELECT[®] Products for Your Home

Select the best when it comes to electrical devices and voice/data products. Choose Hubbell for the superior performance, innovation and style that your home deserves.

Styling for Looks and Safety

When you think safety, think Hubbell. Our range of products makes a difference. GFCI and AFCI receptacles provide the best in people and fire protection, minimizing worry about shocks and electrical fires. Tamper-resistant receptacles reduce the risk of injury by preventing foreign objects from making electrical contact. New nightlight switches and receptacles provide a guiding light without wasting energy. But putting safety first doesn't mean that aesthetics should be ignored. To align with residential décor, Hubbell wiring devices are offered in a full range of designs that blend beautifully with furnishings and finishes.

Energy Savings Like Never Before

Energy efficiency isn't just good for the environment – it's good for homeowners, too. Occupancy sensors and timers offer real energy savings so you can enjoy significant long-term, ongoing reductions in electric bills. Hubbell offers a range of options for controlling residential energy use. Sensors turn lights on when you need them, and automatically turn them off when you leave the room. Digital timers provide economic lighting and fan control with just the touch of a finger. LED-compatible dimmers allow you to control lighting levels, offering just the right atmosphere with comfort and convenience.

Technology and the Interconnected World

Count on netSELECT[®] advanced communications for outstanding network structured wiring to enhance your voice, data and TV connections. Our multimedia products satisfy the need for a dependable, flexible system that can “future proof” your home.
