

CHANCE® PRECAST CONCRETE COLLARS

FOR CHANCE INSTANT FOUNDATION® SYSTEMS

NEVER POUR CONCRETE AGAIN!

Designed to enhance the appearance and functionality of streetlight foundations, CHANCE Precast Concrete Collars are an ideal, ready-made solution to specify in conjunction with CHANCE Instant Foundations.

Instant Foundations are a pre-engineered helical pile specifically designed for above-grade and at-grade mounting for decorative or architectural, roadway/DOT, or area/parking lighting.

Available 12" and 24" heights with a 24" diameter, Precast Concrete Collars drop onto the Instant Foundation's base and the pole is ready to mount. With no concrete to cure, the collars can be installed in any weather and are ready to use immediately after installation.

Specify the CHANCE Instant Foundations steel helical pile and Precast Concrete Collar together to provide a high-strength steel lighting structural support enhanced with a quality architectural base appearance.

INSTALL THE BASE AND SIMPLY DROP ON THE PRECAST, READY-MADE COLLAR:

- **ONE** trip to the job site
- **ONE** manufacturer
- **ONE** simple solution

CHANCE Instant Foundation with Precast Concrete Collar

KEY BENEFITS:	CHANCE	Traditional Concrete
No site casting concrete required	✓
