

# SERVICE ENTRANCE WEDGE DEADEND

## FOR ACSR, AAC & AAAC CONDUCTORS

**FEATURES:**

- For deadending and stress relief of service entrance/drop installations.
- Attach to bare neutral at any point.
- Allows for easy sag adjustments.
- Available in rigid or flexible bail designs.
- Fast and easy to install.
- Available in three convenient sizes (rigid and flex bail)
- Gentle on conductor. Washboard and bump design eliminate the need for harsh teeth or grit to ensure holding strength.

Hubbell has a policy of continuous product improvement. Please visit [hubbellpowersystems.com](http://hubbellpowersystems.com) to confirm current design specifications

SF\_05\_027\_E

\*For low tension applications only. Not rated as a full tension device.

Gripping unit gentle on conductor
