

# FIBERGLASS CUTOUT & ARRESTER BRACKET

## NEW PRODUCT FOR FIBERGLASS CONSTRUCTION

Fiberglass brackets are lighter weight and stronger alternative to wood brackets. They also have a longer life as they are not prone to environmental rotting, cracking and damage from insects and birds.

### FEATURES AND BENEFITS

- Foam filled, nonconductive composite member
- UV inhibited Fiberglass coated with UV inhibitor
- Fire resistant relative to wood
- Aluminum mounting bracket with galvanized steel hardware

Consult factory for alternative lengths, hardware and optional grounding wire.
