

38KV 200 KV BIL M3 DISCONNECT

INTRODUCING OUR NEW M3 SWITCH

FEATURES AND BENEFITS

- 52" (1,321 mm) Leakage Distance
 - Standard 36kV 150 BIL insulators have 28" (711 mm) leakage distance
- 15.7" (399mm) Strike Distance
- Suitable for application in coastal areas or other highly contaminated areas
- Meets or exceeds ANSI & NEMA Specifications
- ESP insulating material to offer tracking resistance and hydrophobicity
- Special process control of crimping and bonding to ensure optimum mechanical and electrical performance.

**CHANCE®: THE BRAND AND
QUALITY YOU CAN TRUST**
