Home Solutions

Innovation and Convenience from Hubbell

Convenient power where you want it, when you need it.

Think of all the places you would like to have convenient access to charge phones, tablets, speakers and other tech gadgets.

Give your new home the convenience you want by adding any of the items below* to replace any existing outlet.

Wireless wall-mount charger & USB outlet

No cord? No problem! Flexible holder keeps phone firmly in place and allows you to access alerts without removing the phone. Charges through most phone cases.

Charger & Surge Combo

Protect your valuable computers and equipment by installing surge protection at the device, while also allowing ample charging for all your mobile devices.

*Requires two outlet boxes for installation.

USB charger outlets

USB A port for legacy devices, and USB C for newer electronics. Plus, room to access USB ports and receptacles at the same time!

Outdoor weather-resistant USB receptacle

Front porch, back patio or garage: No need to worry or stop entertaining when your battery runs low.
