2X2 USB Work Surface Pop-Up Box

*Charging convenience
at the push of a button*

*Simple push-down method
to open and close*

*Brushed aluminum, black powder
coat, or white powder coat finishes*

Easy to install

Hubbell's UL Listed 2X2 USB Work Surface Pop-Up Boxes are ideal for work surfaces, such as desks, which require power for a computer and USB charging for smart devices. Each box includes one 125V, 15A duplex receptacle and two USB ports, available with one Type A and one Type-C or with two Type A ports.

Developed with coordination from the hotel industry, the Hubbell Pop-Up Box utilizes a pneumatic spring for providing a smooth action for opening and closing. Available in brushed aluminum, black powder coat or white powder coat, the Pop-Up Box is suited for installation with any modern décor, making it excellent for conference rooms or classrooms that are frequently rearranged.

Installation is simple and only requires a jig-saw or similar saw plus a screwdriver. The unit is supplied with a 5 foot cord with a molded plug end, allowing it to be installed with ease. Designed to be installed into existing desks or by furniture manufacturers. The Hubbell 2X2 USB Work Surface Pop-Up Box is ideally suited for any work surface application.
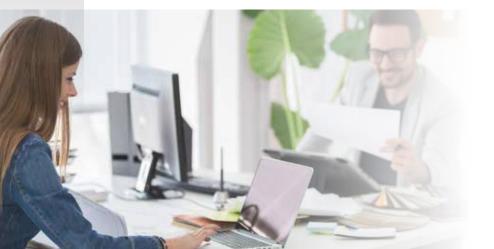

FEATURES

- 15A, 125V tamper-resistant duplex receptacle with 2 USB charging ports
