IMPORTING IES PHOTOMETRY INTO RELUX

- 1. Create a new or open up an existing project within Relux.
- 2. On the Main Menu bar, select the "Insert" tab, "Luminaires", then "New single luminaire..."
- 3. Select the "Individual luminaire" tab on the Product Selection window, and browse for the individual IES files that you wish to import, opening them one by one.

ielect L	DC file					1	
Folder File name		H. Lighting Design/IES File:\PRGE PRGE_236_BLies					
B	ome	ANSI	Code				
						_	
No.:	Number	Lamp type	Luminous flux	Colour (Ra)	Power [W]		
1	2	6200		7	U		
				1000			
_	Add >>		Fieplace 27	New lumin	alite type		

- 4. Select 'Add' to import the photometric file into your project.
- 5. For further assistance, please refer to the Relux help files.
