

# DISTILLERY INDUSTRY

..... *A Dedicated Range of Products for Drinks Distilleries* .....

Follow us

Using a combined total of 160 years of experience supplying industrial and hazardous markets, Hawke and Chalmit have developed a range of products perfectly suited for the growing Distillery market.

Combining cutting edge designs with easy installation, low maintenance and long lifetimes, the range has been created to meet the demands of the exciting Distillery market.

Whether you require a solution for a hazardous area or an industrial one, look no further than Hubbell for your needs. We deliver lighting, cable glands, junction boxes and control stations – a true **One Hubbell** package.

Our expert team are on hand to help you discover more about the range of products we can supply.

# Our Products in the Industry

Chalmit have been specified on a number of distillery projects, and boast collaboration with some of the biggest market players in the UK. Our project list includes **Diageo**, **MacCallan**, **Chivas** and **William Grant & Sons**.

In 2018, we supplied our popular Sterling fitting and NexLED emergency lighting to **Sweetdrum Distillery's** bright and modern facilities in Edinburgh, providing a comfortable, clear light.

*Sterling and NexLED Emergency lighting in action in Sweetdrum Distillery.*

# A One Hubbell Solution from Chalmit and Hawke

## Lighting

Chalmit's range of high-performing luminaires with low-maintenance designs, long lifetimes and various options for colour temperature are ideal for industrial and hazardous area applications. Whether it's crisp, white lighting for rooms and offices or a softer, warm illumination for bar areas, warehouses or tasting rooms, our wide colour temperature range means we can provide customers with the perfect lighting solution for their application.

## Cable Glands

Hawke offers a wide range of cable glands for industrial and hazardous applications, ensuring all safety standards are upheld in any situation. Our recently updated Cable Gland range ensures cutting edge design, quality and safety whilst boasting an extensive array of accessories to improve the lifespan of machinery and equipment. Our heavy duty cable glands are ideal for industrial as well as Zone 1 and 2 areas.

## Control Stations

HazCon Control Stations are designed to be easily customised for any application. All our Control Stations have IP66 ingress protection, impact resistant 316 stainless steel or Glass Reinforced Anti-Static Polymer enclosures, and are easy to access for maintenance and installation.

# PROTECTA X

LED Linear - Industrial

The next generation in LED linear luminaires, the Protecta X's revolutionary design puts LED at the centre to provide the performance of a 4ft linear in a lightweight and slimline package. Offering a robust enclosure, excellent IP and a variety of features to make installation and maintenance effortless, the Protecta X is ideal for industrial environments. Expected useful life to 70% of the initial lumens (L70) is >200,000 hours at 25°C, with an incredible 90,000 maintenance free hours at 60°C. For a luminaire with the longest life, the highest output and market-leading efficacy, choose the **Protecta X**.

## Mounting Options

Ceiling. Wall. Suspended. Pole. Handrail.

## Standard Specification

Protecta X LED Linear

Enclosure	Marine grade aluminium body with polycarbonate diffuser. Driver enclosure with epoxy powder finish (RAL 9005)
Geartray	Aluminium
Entry	4 x M20 cable entries - 2 at each end [3 cable entries on Emergency with battery stick]
Termination	3 core 4mm <sup>2</sup> max conductor [4 core on Emergency] with looping one end and 16A rating through wiring
Installation	2 x M8 mounting points located on the rear of the body
Control Gear	Electronic Driver
Optical Distribution	Wide beam
Colour Temperature (CCT)	5000K (Cool White)
Colour Rendering Index (Ra)	>70
Maintenance	Front access panel with Torx screws
LED Lifetime @ 60°C Ambient	L70 > 200,000hrs
System Life @ Ambient	120,000hrs @ 25°C; 90,000hrs @ 60°C [excluding battery]
Battery	Hot-Swappable Ni-MH (6V) battery stick - externally accessed [/EM version only]
Emergency Duration	90 mins (25% output)
Ingress Protection	IP66/67 to EN 60529
Surge Protection	4kV
Electrical Supply	110-277V AC, 50/60Hz 127-250V DC

## Features

- ◆ Highly **Energy Efficient** >135lm/W
- ◆ **Screwless** mains terminals
- ◆ **Multiple beam** distributions available
- ◆ **Front access cover** for easy termination
- ◆ **>90,000 maintenance free hours** at 60°C
- ◆ **Externally accessible battery stick** for ease of maintenance

# PROTECTA III

LED Linear - Industrial

The Industrial **Protecta III** is a high quality LED linear delivering unparalleled performance and all the recognised benefits of the existing Protecta range; a proven robust enclosure, excellent IP and low maintenance features which are key to heavy industrial and harsh marine environments.

Expected useful life to 70% of the initial lumens (L70) is a market leading 155,000 hours at 45°C and, combined with a lightweight geartray design utilising fully replaceable LED strips and driver, we can deliver a unique product with effective long term maintenance capabilities.

## Mounting Options

Ceiling. Wall. Suspended. Pole/Stanchion.

## Standard Specification

Protecta III LED Linear

Enclosure	GRP body with polycarbonate cover
Geartray	White coated zintec
Entry	4 x M20 cable entries - 2 at each end
Termination	3 core 4mm <sup>2</sup> max conductor with looping and 16A rating through wiring [4 core on Emergency]
Installation	2 x M8 moulded-in stainless steel bushes located on the rear of the body
Control Gear	Electronic Driver
Colour Temperature (CCT)	4000K (Neutral White)
Colour Rendering Index (Ra)	≥70
Maintenance	Quick release diffuser clamp and hinged cover
LED Lifetime @ 45°C Ambient	L70 ≥ 155,000hrs
Maintenance Free Lifetime	120,000hrs @ 25°C
Battery	Internal Ni-Cd (6V) [Emergency version only]
Emergency Duration	3 Hours (02L version = 33% output, 04L version = 23% output, 07L version = 12% output)
Ingress Protection	IP66/67 to EN 60529
Surge Protection	02L = 1kV; 04L/07L = 4kV (line to line)
Electrical Supply	120-277V AC, 50/60Hz 127-300V DC 220-240V AC, 50/60Hz [Emergency version only]

## Features

- ◆ Highly **Energy Efficient**
- ◆ **Screwless** mains terminals
- ◆ **DTS-01** deluge tested
- ◆ **Battery monitoring** and **automatic self test**
- ◆ **155,000 maintenance free hours** at 45°C
- ◆ **Simple rugged construction**

# STERLING III

LED Linear - Industrial

The **Sterling III** LED is a high quality, cost effective linear which realises further power savings over the Sterling II family, without impacting on the luminaire performance.

Featuring a lightweight, single geartray design allows for ease of installation and maintenance, and is available with or without internal opal diffusers to suit any industrial application.

## Mounting Options

Ceiling. Wall. Suspended. Pole.

## Standard Specification

Sterling III LED Linear

Enclosure	GRP with prismatic polycarbonate diffuser and stainless steel retaining clips
Geartray	White coated zintec
Entry	2 x 20mm diameter clearance holes
Termination	4 core 4mm <sup>2</sup> max conductor with through wiring 16A rating
Installation	Two clearance holes for M8 fasteners located on rear of body, sealing washers provided
Control Gear	Electronic Driver
Colour Temperature (CCT)	4000K (Neutral White)
Colour Rendering Index (Ra)	≥70
Maintenance	Access via diffuser secured by quick release stainless steel clips
Battery	Internal Ni-Cd (6V) (Emergency version only)
Emergency Duration	3 Hours (03L = 26%; 06L = 14%; 09L = 10%)
Ingress Protection	IP65 to EN 60529
Surge Protection	4kV line to line, 6kV line to earth
Electrical Supply	120-277V AC, 50/60Hz 127-300V DC 220-240V AC, 50/60Hz (Emergency version only)

## Features

- ◆ Highly **Energy Efficient**
- ◆ **Battery management** and automatic self test
- ◆ Lightweight and **slimline construction**
- ◆ **155,000 maintenance free hours** at 45°C (L70)

# NexLED

LED Bulkhead - Industrial

The **NexLED** delivers an instant bright white light. Designed for low profile applications, the bulkhead can be mounted on walls, handrails and ceilings making it ideal for walkways or restricted height areas.

The **NexLED emergency** option provides emergency battery backup to ensure continued operation in the event of a power outage. Benefits from the same features as the standard NexLED and is also available as a low temperature version for operation down to -45°C.

## Mounting Options

Ceiling. Wall. Recessed. Pole/Stanchion. Bulkhead.

## Standard Specification

NexLED LED Bulkhead

Enclosure	Aluminium LM6 body, RAL-9005 black epoxy polyester paint finish with toughened glass and silicone gasket
Reflector	Brushed aluminium
Entry	3 x M20 cable entries
Termination	3 core 4mm <sup>2</sup> max conductor with looping (4 core on Emergency)
Installation	Surface mounted, 4 mounting holes located outside of seal
Control Gear	Electronic Driver
Colour Temperature (CCT)	4100K (Neutral White)
Maintenance	M6 Slotted Screws
Battery	Internal NiMH (201-6V, 801-10.8V) (Emergency only)
Emergency Light Duration	3 Hours (100% output)
Ingress Protection	IP66/67 to EN 60529
Surge Protection	4kV
Electrical Supply	120-240V AC 50/60HZ 220-254V AC 50/60Hz (Emergency only)

## Features

- ◆ Highly **Energy Efficient**
- ◆ Highly visible, **instant light**
- ◆ **Easy to install** and maintain
- ◆ Very low **power consumption**
- ◆ **100% output in emergency mode** (up to 3 hours)
- ◆ **Ultra long life** no re-lamping required
- ◆ Over **60,000 hours\*** continuous operation

# ARRAN

LED Floodlight

Sleek and highly efficient, this reliable compact luminaire delivers a uniform photometric distribution and powerful performance of 130,000 maintenance free hours at 25°C.

An excellent temperature range of -50°C to +55°C makes the **Arran** a global lighting solution providing high output lighting at extreme temperatures.

The great versatility of this luminaire allows a variety of mounting options from pendant to stanchion covering a wide range of Industrial installations.

## Mounting Options

Floodlight. Pendant. Pole/Column. High Bay.

## Standard Specification

Arran LED Floodlight

Enclosure	Aluminium alloy with epoxy powder finish
Entry	2 x M20 cable entries
Termination	3 core 6mm <sup>2</sup> max. conductor with looping
Installation	Stirrup mounting bracket
Control Gear	Electronic Driver
Colour Temperature (CCT)	5000K (Cool White)
Maintenance	M5 Slotted Screws
Ingress Protection	IP66
Surge Protection	4kV line to line, 6kV line to earth
Electrical Supply	120-277V AC 50/60Hz 127-250V DC

## Features

- ◆ Highly **Energy Efficient**
- ◆ **Instant on** crisp white light output
- ◆ **Lower power consumption** than HID lamps
- ◆ **Low temperature applications** to -50°C
- ◆ **130,000 maintenance free hours** at 25°C

# ARRAN

Ex n LED Floodlight

Sleek and highly efficient this reliable compact luminaire delivers a uniform photometric distribution and powerful performance of 130,000 maintenance free hours at 25°C .

Its excellent temperature range of -50°C to +55°C makes it a global lighting solution providing high output lighting at extreme temperatures. Offering an easily maintainable driver and LED strip, the **Arran** provides all the advantages of an LED luminaire with the benefit of extending its serviceable life.

## Mounting Options

Floodlight. Pendant. Pole/Column. High Bay.

## Standard Specification

Arran Ex n LED Floodlight

Type of Protection	Ex nA (Non Sparking) Ex tb (Dust Protected Enclosure)
ATEX Classification	Group II Category 3 GD Group II Category 2 D

# ECLIPSE II

Ex n LED Highbay

The **Eclipse II** LED has been designed to make installation quick and simple. The lamp and gear chambers are separated for easy maintenance and require no special cable glands.

The luminaire also features a swing barrel nut system. This allows prior installation and wiring of the mounting base without the need to support the body and lamps. This unique design saves on both time and labour costs.

## Mounting Options

Floodlight. Pendant. Pole/Column. Medium Bay. Low Bay.

# BARRIER Upgrade Kits

## One gland – two applications

The 501/453/UNIVERSAL gland has been a market leading Ex cable gland for 2 decades, but the latest version truly lives up to its **UNIVERSAL** name.

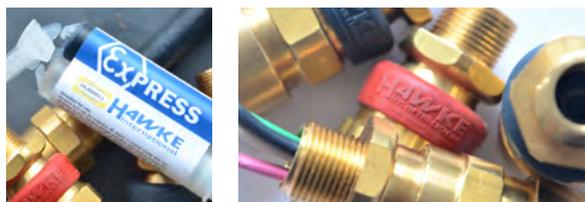

The 501/453/UNIVERSAL gland still utilises the industry leading internal diaphragm seal to meet the explosion requirements of Exd whilst also helping to prevent cold flow in cables. The 501/453/UNIVERSAL offers installers the unique opportunity to upgrade the diaphragm seal, meant for use on effectively filled cable inner sheath's, to a barrier type gland, whereby a seal is formed around each individual cable core.

The upgrade kits are available in both **QSP** and **ExPress** versions and come with everything needed to turn the 501/453/UNIVERSAL into the ICG/653/UNIVERSAL gland. This offers the user the ability to purchase just one Exd gland for both their standard, and barrier gland requirements.

This flexibility is unrivalled and offers unparalleled cost saving and peace of mind.

**QSP 2-part hand mix putty** - simple to use with a cure time from 30 minutes. Particularly useful where termination space is limited or cables are running horizontally to the installation area. Can be inspected and repaired if necessary, allowing for the very highest level of safety

**ExPress barrier resin** - a globally certified, liquid injectable and fast curing resin, allowing for faster installation time than traditional 2-part compounds. Utilising a unique clear compound chamber allowing full visibility of the flameproof seal during installation and inspection.

### Ordering Information

Format for ordering is as follows:

Product type	Resin type	Size*	Material**
Conversion pack	QSP	A	NP (Nickel Plate)
Conversion pack	ExPress Resin	A	Brass

Ordering Example: Conversion Pack/ ExPress / A / NP

\* To match the size of the 501/453/UNIV you want to convert to a ICG653/UNIV

\*\* To match the material of the 501/453/UNIV you want to convert to a ICG653/UNIV

All dimensions in millimetres (except \* where dimensions are in inches). Os - F size metric entry threads are 1.5mm pitch as standard, 15mm length of thread. For G size glands and above, a 2mm pitch is supplied as standard, 20mm length of thread (1.5mm pitch with 15mm length of thread can be supplied) please specify when ordering. G size and above are available in the 153/RAC design style.

## Technical Data

Construction & Test Standards	BS EN 62444:2013, BS 6121: Part 1 Type E1W, E1X, E1Y and E1Z
Ingress Protection	IP66, IP67, IP68 (30 metres for 7 days, special conditions apply) and IP69 to IEC/EN 60529 (when fitted with a Hawke washer)
Deluge Protection	to DTS01
Operating Temperature	-60°C to +80°C

## Alternative Reversible Armour Clamping Ring Size Selection

Size Ref	Steel Wire Armour / Braid / Tape	
	Orientation 1	Orientation 2
B	0.9 - 1.25	0.5 - 0.9
C	1.2 - 1.6	0.6 - 1.2
C2	1.2 - 1.6	0.6 - 1.2
D	1.45 - 1.8	1.0 - 1.45

## Ordering Information

Format for ordering is as follows: Alternative Clamping Ring (AR), add suffix AR to ordering information

Cable Gland Type	Size	Thread	Material	(Optional)
153/UNIV	C	M32	Brass	AR
153/UNIV	C	1¼" NPT	NP Brass	AR

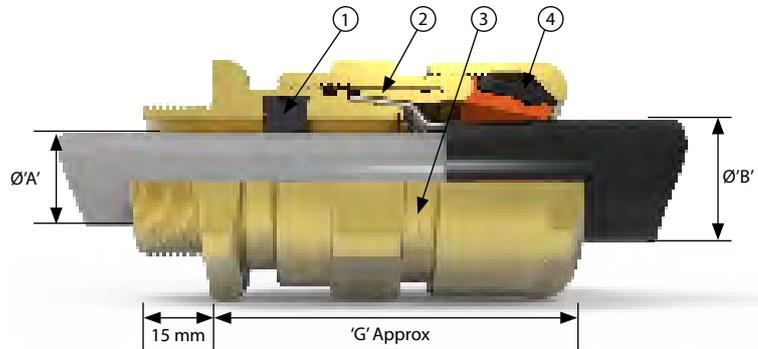

Example Code: 153/UNIV C M32 Stainless

# 153/RAC

Industrial gland for indoor or outdoor use

- 1 Elastomeric seal on cable inner sheath
- 2 Fully Inspectable Armour Clamp
- 3 Patented Cable Gland Tightening Guide - Helps prevent damage caused by over tightening
- 4 Unique Rear Seal - Offering ultimate sealing over an extremely wide cable acceptance range.

The 153/RAC Cable Gland is an industrial gland for indoor or outdoor use, robust and for use with single wire armour 'W', wire braid 'X', steel tape armour 'Z', elastomer and plastic insulated cables. The gland provides an elastomeric seal on the cable inner sheath, and a low smoke, zero halogen IP and retention seal onto the cable outer sheath. See technical section for installation rules and regulations

# HAZCON CONTROL STATIONS

GRP and Stainless Steel

Developed to exceed customer expectations, the Control Station range is for use wherever potential explosion hazards exist (Zone 1/21 & 2/22) and boasts a huge selection of pushbuttons, ammeters and selector switches.

Available in both high impact GRP (Glass Reinforced Antistatic Polymer) and 316L Stainless Steel and certified to ATEX/IECEX and UL, the range can also be marked cULus, EAC and Inmetro – a true globally certified range.

- IP66 Ingress protection
- AC/DC compatible LED's
- 5 enclosure size offerings
- External mounting feet
- High switch contact blocks
- Add another bullet point

# Project List

Our project list has increased steadily since 2017 within the growing drinks distillery market. With new products being launched regularly from Chalmit and Hawke, we anticipate continued growth and collaboration with more and more distilleries seeing the benefits of our products in their facilities.

YEAR	PROJECT NAME
2017	Glenlivet Distillery <i>E2 New Build - Chivas</i>
2017	MacAllan Distillery
2018	Sweetdram Distillery
2018	MacAllan Distillery
2018	Miltonduff Distillery
2018	MacAllan Distillery
2019	Bruichladdich Distillery Warehouse
2019	Cameron Bridge Distillery

**Harsh & Hazardous**

## Hubbell Harsh & Hazardous

Extreme environments demand superior performance, which is why you will find Hubbell products and systems installed in some of the most arduous and safety critical locations worldwide.

**The Hubbell Harsh & Hazardous group combines dedicated, market leading brands within the Hubbell portfolio to provide a complete package for companies operating in some of the toughest environments on the planet.**

We are committed to providing quality products and services that will meet and exceed your expectations. Our principal activities include the design and manufacture of rugged and hard wearing products. These include telephones and communication products, lighting, control gear and electrical connection products, all designed to operate primarily in extreme outdoor, hazardous and corrosive areas.

## Our Brands

All of our brands are long established and well respected businesses within each of their industries. Our primary industry sectors include: Oil & Gas, Petrochemical, Industrial, Marine, Military, Transport and Commercial.

## Corporate Information

Hubbell Incorporated HQ is based in Connecticut, U.S.A. and you can find out more information about the Hubbell Group on our corporate website at [www.hubbell.com](http://www.hubbell.com)
