

2016 PHMSA Excess Flow Valve (EFV) Expansion Ruling

In addition to single family residences, EFVs are now required at:

Multi-Family Structures with loads **UP TO** 1,000 SCFH

Single Commercial services with loads **UP TO** 1,000 SCFH

Branch Services (new or previously installed) regardless of load

A Curb Valve may be installed in lieu of an EFV at:

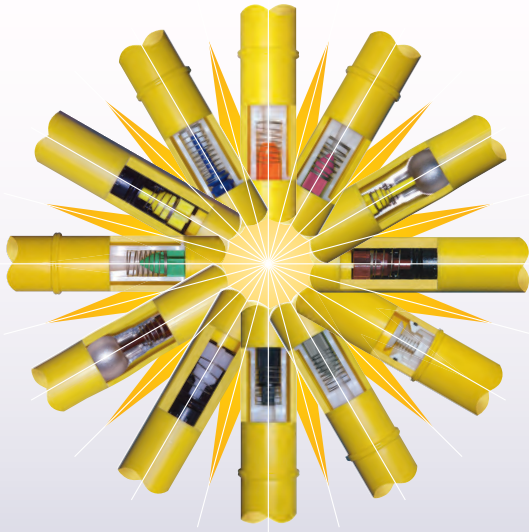

Multi-Family Structures with loads **GREATER THAN** 1,000 SCFH

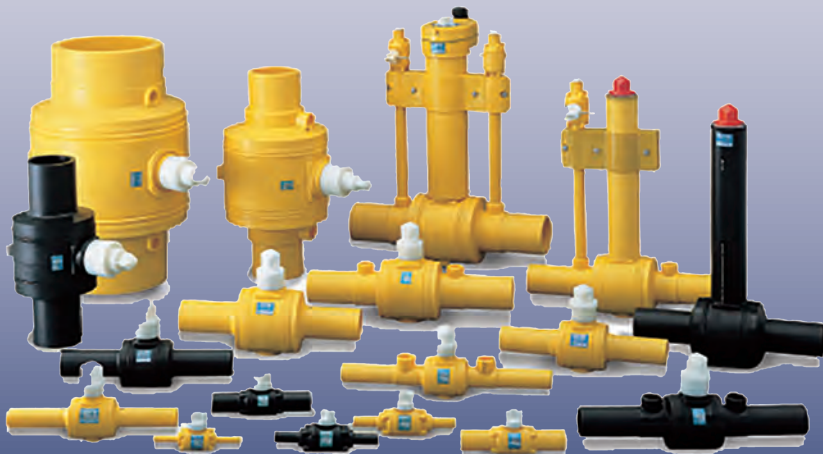

Single Commercial services with loads **GREATER THAN** 1,000 SCFH

2016 PHMSA Excess Flow Valve (EFV) Expansion Ruling

Whatever the situation, Hubbell Gas Connectors & Accessories (HGCA) has a solution.

- Industry leading Excess Flow Valves with flow ratings up to 10,000 SCFH at 10 psig
- Polyethylene Ball Valves up to 16" diameter
