Our Company

Continental Industries, headquartered in Tulsa , Oklahoma , was formed in 1958 and is today a leading manufacturer of connectors for the Gas Utility, Gas & Water Distribution, Propane, Plumbing and Cathodic Protection markets.

An ISO 9001 certified company, Continental Industries has manufacturing locations in Tulsa and Broken Arrow , Oklahoma. Our employees are committed to providing the best value to our customers.

Our full line of plastic and steel connector products are produced utilizing state-of-the-art injection molding machines, automatic screw machines, and CNC machining equipment. Our commitment to quality is evident in every step of our business processes. Renowned for our design and development of technologically advanced products, we provide our customers with reliable, cost-effective solutions to their “main to meter” service line installation, repair, or renewal problems.

thermOweld® , our exothermic welding materials and accessories products, provide a simple, efficient, cost effective method of permanently connecting two or more conductors utilizing a high temperature exothermic reaction between Aluminum and Copper Oxide to produce an almost pure copper weld. We manufacture all of our weld metal and molds in Oklahoma so you are certain of getting consistent, high quality products to satisfy your exothermic welding needs.

Our Vision

Simply stated, our vision is “To be a Sales and Customer Driven Company” . Our commitment to providing the best value to our customers is shared by the entire organization and is evidenced by both the number of long standing relationships we have gratefully developed over the years and the new relationships we are developing every day.

Why Use

Continental Industries is the industry leader in the manufacturing of plastic and steel mechanical fittings for the Gas & Water industry. From the I.D. Seal® Con-Stab to Scope®, steel saddles to HVT, quality and service is what drives us at Continental Industries.

Manufacturing fittings since 1958, Continental has the experience and confidence necessary to provide the best quality products on the market today. Continental Industries’ mechanical fittings will save you both time and money and give you the peace of mind that comes with using a quality product.

Continental Industries’ uses only the highest quality raw materials, engineered designs and manufacturing processes to ensure the consistent quality that makes Continental Industries’ products second to none.

With regional sales offices located throughout the United States, a Continental Industries representative is only a phone call away to help with any questions you may have.

Come experience what so many other satisfied customers have experienced, the excitement and family atmosphere that is Continental Industries!

TRANSITION FITTINGS

Polyethylene Pipe x Pipe Thread or Weld End For Joining Polyethylene Pipe To Metallic Pipe

- O-RING SEAL PROVIDES POSITIVE SEAL
- ZINC PLATED FOR CORROSION PROTECTION
- MECHANICALLY HELD - PROVIDES MAXIMUM PULL-OUT RESISTANCE—tensile strength exceeds requirements of D.O.T., Title 49 of the Code of Federal Regulations, Part 192.283 (b)
- AVAILABLE WITH 2406/2708 OR 3408/4710 P.E. EXTENSIONS
- CONFORMS TO ASTM D2513, & ANSI B31.8 & DOT 192.121
- AVAILABLE WITH MALE PIPE THREADED END

STEEL SERVICE TRANSITION PUNCH TEES WITH SEAL PLUG CAP

The Most Foolproof, Versatile, Economical Punch Tee Available

- CAP SCREWS DOWN INSIDE TEE BODY
- O-RING IN CAP PREVENTS LEAKAGE
- NO NEED FOR TEFLON TAPE OR THREAD SEALANT
- CAP CAN BE TIGHTENED BY HAND TO SEAL AT 800 PSI
- WELDS ARE TESTED TO 450 PSI
- PUNCH PROVIDES POSITIVE VALVE ACTION AT MAIN
- FAST - NO BULKY DRILLING EQUIPMENT NEEDED
- SAFE - NO BLOWING OF GAS
- TWO TYPES OF PUNCHES AVAILABLE (SEE PG 13)
- AVAILABLE IN WELD, THREADED OR SADDLE INLETS
- O-RING SEAL PROVIDES POSITIVE SEAL
- EPOXY COATED FOR CORROSION PROTECTION
- MECHANICALLY HELD - PROVIDES MAXIMUM PULL-OUT RESISTANCE—tensile strength exceeds requirements of D.O.T., Title 49 of the Code of Federal Regulations, Part 192.283 (b)
- AVAILABLE WITH 2406/2708 OR 3408/4710 P.E. EXTENSIONS
- CONFORMS TO ASTM D2513, ANSI B31.8 & DOT 192.121

PUNCH DATA — SIZES, TYPES & WALL LIMITS

“CR” Coupon Retaining Punch

Coupon is actually retained in head of punch
– no more coupons left inside mains.
Exclusive tip design reduces tapping torque.
Available with all Continental Punch Tees.

EXCLUSIVE

“NC” No Coupon Punch

No “Coupon” Punch flares a hole
in the main without producing a “Coupon”.
Available in 1/4” & 3/8” sizes only.
Specify “No Coupon Punch”.

- One piece tool steel
- Positive valve
- Socket and threads heat treated for maximum toughness
- Cutting tip is heat treated for maximum hardness

STEEL SERVICE SAFE-T VALVE TEES WITH PIPE CAP

- A VALVE TEE FOR THE COST OF MOST PLAIN TEES
- EASILY INSTALLED WITH ANY STANDARD DRILLING MACHINE
- WELDS ARE TESTED TO 450 PSI
- AVAILABLE IN WELD OR THREADED INLETS
- O-RING SEAL PROVIDES POSITIVE SEAL
- EPOXY COATED FOR CORROSION PROTECTION
- MECHANICALLY HELD - PROVIDES MAXIMUM PULL-OUT RESISTANCE—tensile strength exceeds requirements of D.O.T., Title 49 of the Code of Federal Regulations, Part 192.283 (b)
- AVAILABLE WITH 2406/2708 OR 3408/4710 P.E. EXTENSIONS
- CONFORMS TO ASTM D2513, ANSI B31.8 & DOT 192.121

1319, 1420 & 1521 STYLE STEEL TRANSITION SERVICE SAFE-T VALVE TEES Transition Outlets

NOTE: It is advisable to limit shear at main connections. In this regard, your company's policies should be followed. For further information, reference; ASTM D 2774 Standard Practice for Underground Installation of Thermoplastic Pressure Piping; Code of Federal Regulations, Title 49, Transportation Part 192; AGA Plastic Pipe Manual and/or The Guidance Manual for Operators of Small Gas Systems by the U.S. Department of Transportation.

Continental's Transition Punch Tees & Transition Saddle Punch Tees provide the user with the following advantages:

- Cost effective joining method
- No bulky drilling equipment required
- Safe - No blowing of gas
- Two types of punches available
- Meets or exceeds all D.O.T. and ASTM requirements
- Can be furnished with any type polyethylene

Each Saddle provides the following unique features:

- Rugged all steel construction
- Full saddle wraparound
- Elastomeric O ring seal
- Exclusive hinge design
- Uses single zinc dichromate plated SAE J429 Grade 2 nut and bolt

Continental Industries is an ISO 9001 Certified Company. Continental's Transition Punch Tees and Transition Saddle Punch Tees are manufactured and tested to the following industry standards.

- ASTM D 2513 "Standard Specification for Thermoplastic Gas Pressure Pipe, Tubing and Fittings"
- ASTM F 1973 "Standard Specification for Factory Assembled Anodeless Risers and Transition Fittings in Polyethylene (PE) Fuel Gas Distribution"
- ASME B31.8-1995 "Gas Transmission and Distribution Piping Systems"
- D.O.T., Title 49 of the Code of Federal Regulations, Part 192.283 (b) & 192.367
