

**thermOweld<sup>®</sup>**

**Since  
1958**

 **BURNDY**

Connecting Power to Your World

**thermOweld®** is a global leader in grounding products and services since 1958.

Whether it's our exothermic expertise, the complete grounding product lines we offer, or our UL lightning protection, we have the speed and quality you need with the product customization you desire.

We have the capability to custom design the grounding solutions you need in our state of the art facility in Tulsa Oklahoma, USA.

Our ISO 9001 commitment to quality assures you can be certain of the most consistent, high-quality products to satisfy your demanding infrastructure needs.

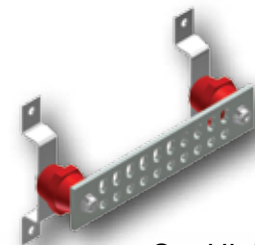

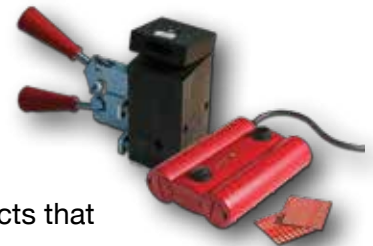

## What do we offer?

We offer products for a wide variety of industries and applications. Grounding, Power, Utility, Telecom, and Cathodic.

The automated manufacturing of our molds and weld metal assures our product quality is unsurpassed.

Our grounding products are not just limited to our exothermic capabilities.

We also manufacture many grounding products that are UL listed including, but not limited to:

- **Ground/Bus Bars**
- **Chemical Ground Rods**
- **Access Wells**
- **Ground Mesh**
- **Gate Jumpers**

Our UL Lightning Protection products help with the overall protection of your infrastructure. Our air terminals, bases, splicers and conductors are all UL listed. We have designers willing to design a system that meets the requirement of UL, NFPA, and LPI.

## Markets thermOweld® Serves

thermOweld® serves the Grounding, Power, Utility, and Cathodic Protection markets globally.

### Grounding and Power

- Commercial and Industrial Buildings
- Equipment
- Telecom
- Lightning Protection
- Government Projects

### Utility Market

- Power Plants
- Substation Plants
- Transmission lines

### Cathodic Protection

- Natural gas pipelines
- Water tanks
- Bridges and Marine Structures

## Sales and Customer Service

**thermOweld**'s Sales team of 100 direct sales professionals along with our segment sales managers are available to support your grounding needs.

Our Customer Service and Technical Support is a highly experienced team. They are available to assist you; Monday through Friday 8:00 am - 5:30 pm CST, call 800-558-1373 or email at:

- [thermoweldquotes@thermoweld.com](mailto:thermoweldquotes@thermoweld.com)
- [thermoweldorders@thermoweld.com](mailto:thermoweldorders@thermoweld.com)

## Training

**thermOweld**'s project-based factory training program provides:

- Overview of exothermic process
- Proper mold and conductor preparation
- Hands on training
- Future technical support assistance

When installers get the correct training, productivity on the jobsite is achieved.

## Weld Metal

**thermOweld** is passionate about making the best weld metal in the world.

- In-house weld metal process is unique to thermOweld
- Stringent quality process consists of 5 different inspections throughout the process
- Made in the USA

## Engineering/Design

**thermOweld** has been awarded many patents over the last 50 years associated with design solutions and innovations. We continue that tradition with:

- A database of over 10,000 exothermic molds
- Experienced and knowledgeable engineers
- Design to production in a matter of days not weeks, supports our global customer base

## Order Today

## Get it Tomorrow

**thermOweld** offers Same Day Service (SDS) on our most popular molds, weld metal, accessories and ground bars at no extra charge.

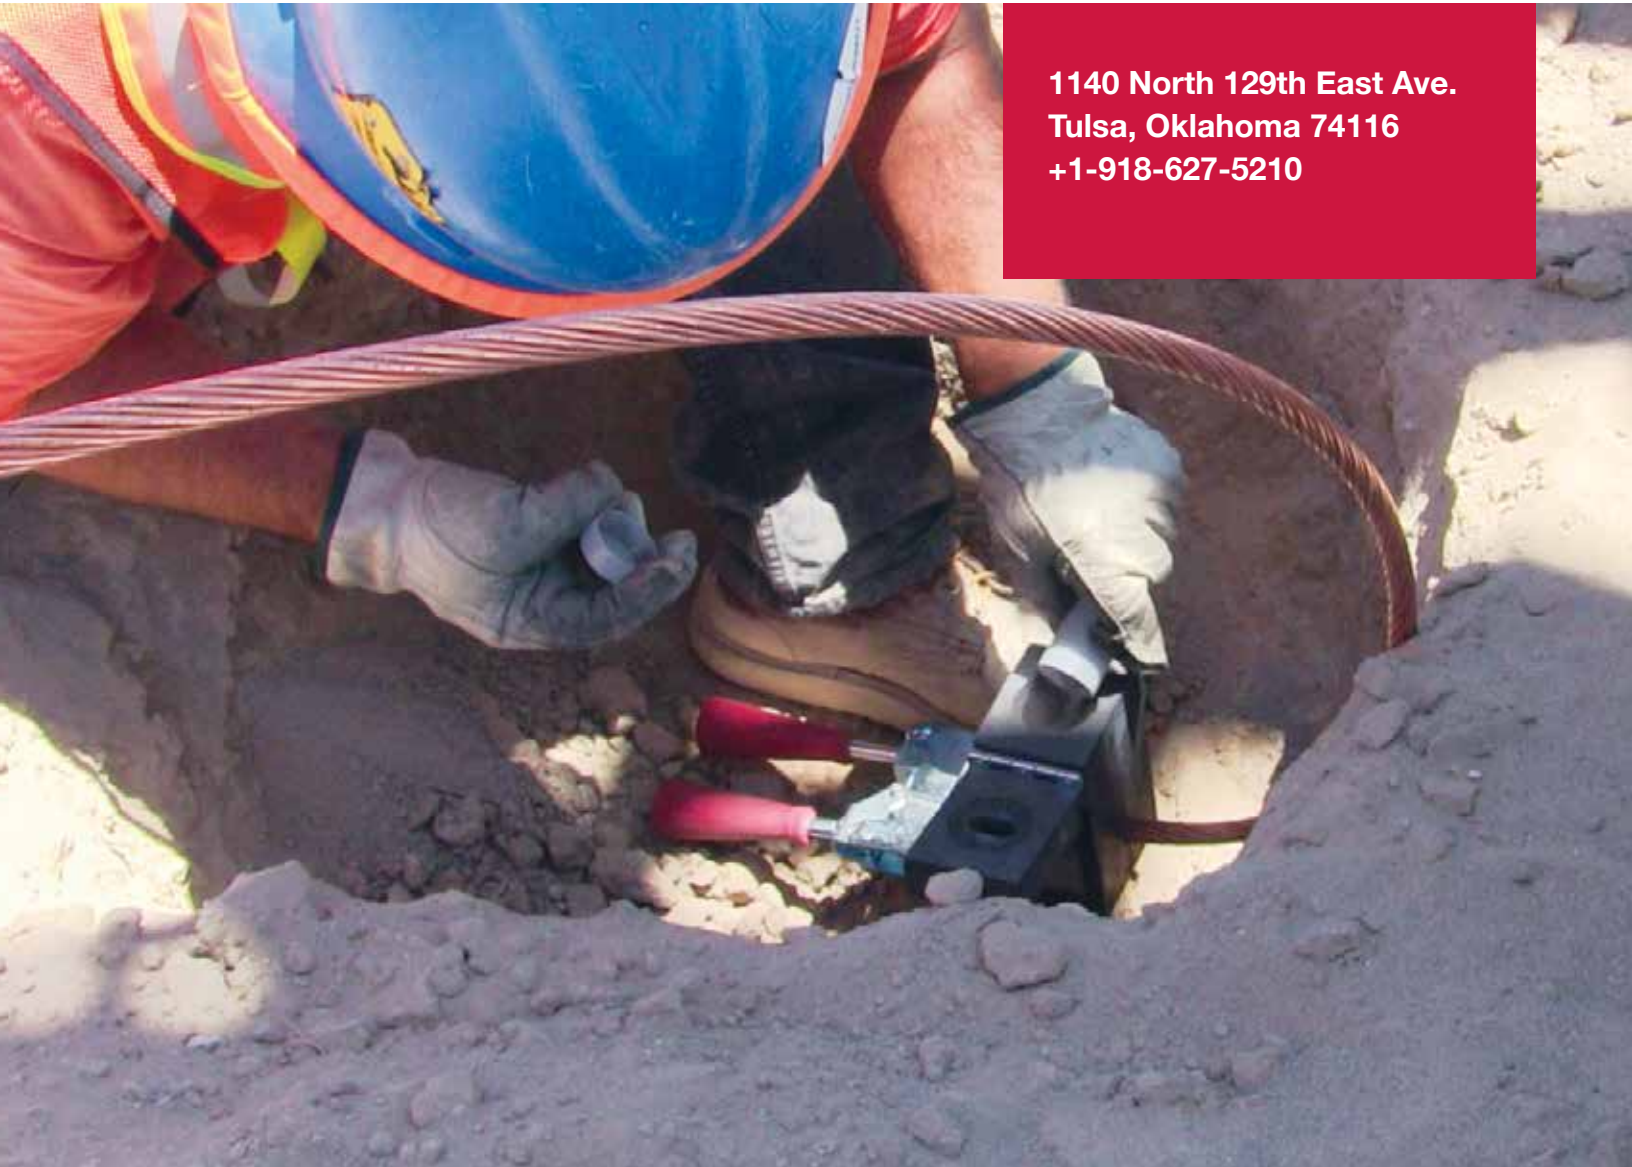

- SDS orders will be shipped same day if received by 4:00 pm CST
- After 4:00 pm it will ship the next day
- Makes it easy to get what you need when you need it
- Freight minimum: \$100 on weld metal & molds
