

The ACC-F90-1 wire management clips are made of corrosion resistant 304 stainless steel, which makes them a durable, long lasting and reliable solution for all environments. The ACC-F90-1 is easy to install and can be installed straight on or at 90 degrees on to module frames of various thicknesses. The ACC-F90-1 accommodates 1 to 2 PV cables up to 7mm in diameter. The rolled edges are designed to help protect cable insulation from damage. ACC-F90-1 clips are the perfect solution for keeping the PV installation neat, clean, and free from ground faults.

Rolled edges are flared up and away from the cable to protect cable insulation from damage.

Catalog Number	ACC-F90-1
Item Number	50042497
Material	304 stainless steel
Width	12mm [0.47"]
Overall Length	20mm [0.79"]
Wire Type	1 to 2 PV cables
Wire Diameter	4.1mm - 7mm (each wire)
Compatible on modules/purlins with a flange thickness range of 1.3 to 2.5mm	

- Innovative design that allows for quick and easy installations
- High quality, long-lasting, labor saving wire management solution
- Corrosion resistant 304 stainless steel provides outstanding durability and performance in all environments
- Can be installed straight on or at 90 degrees (parallel or perpendicular) on to module frame or purlin
- Snake tongue tabs securely anchor clips to module frames or purlins
- Compatible on modules/purlins with a flange thickness range of 1.3 to 2.5mm
- Generous lead in for installation without tools
- Accommodates all types of PV cable from 4.1mm to 7mm in diameter
- Rolled edges protect cable insulation from damage
- Lasts for the lifetime of the Solar PV system
- Recommended for outdoor use
- RoHS Compliant
- Custom designs are available upon request
- UL1565 Listed
