

# Copper Wejtap

BURNDY has a long history of designing high performance connectors and the introduction of the Copper WEJTAP™ line of fire rated connectors is no exception. The BURNDY® copper WEJTAP™ connector line is designed with labor and cost savings in mind along with many other appealing features. Offering expanded range taking capabilities to reduce inventory requirements, 12 sizes cover from #6 to 250 kcmil. Meets ANSI C119.4 including optional fault current test annex. High strength and rugged design for long term reliability and performance on copper conductor applications.
