Features and Benefits

True, one-handed operation for advance, retracts, and holds

Plenty of output force for reliable cuts on an array of conductor sizes

Interchangeable scissor action; crimps or cuts with the same tool

Ram holds position when trigger is released to allow the operator to check alignment prior to cut

Large hand grip area allows easier operation with gloves

Ergonomically balanced tool design helps lessen operator fatigue

Actuated blade guide automatically closes for easy positioning on cable and allows for large diameter cable to be cut

High capacity 3.0 AH batteries provide more crimps per charge

5-year limited warranty on tool; 1-year on batteries and charger
