

BURNDY expands Aluminum Lug Portfolio

BURNDY®, a leading manufacturer and provider of compression connector solutions to the industrial, energy, construction, telecommunications, petrochemical, data center, and transportation industries, announces the addition of 4 standard width tongue variations to their aluminum compression lug portfolio.

The new BURNDY catalog numbers (YA34A8, YA36A17, YA39A13, AND YA44A8) accommodate 500 kcmil, 600 kcmil, 750 kcmil, and 1000 kcmil conductor respectively. Offering an alternative to the existing narrow width tongue pad, these recently introduced terminals feature 2-hole NEMA pad drilling, are UL Listed, CSA Certified, and dual rated for use with copper or aluminum conductor.

About BURNDY

Headquartered in Manchester, New Hampshire, BURNDY has over 90 years of dedicated customer support in both service and product. Our customers need to look no further than BURNDY for all their connector, tool, and accessory needs. BURNDY is the only manufacturer to have the BURNDY® Engineered System of coordinating dies, connectors and tools. The three elements have been specifically designed to work together and engineered to meet stringent, accepted quality standards allowing the user complete confidence in the integrity of the connection.
