

### Features & Benefits

- Innovative design that allows for quick and easy installations
- High quality, long-lasting, labor saving wire management solution
- Corrosion resistant 304 stainless steel provides outstanding durability and performance in all environments
- Snake tongue tabs securely anchor clips to module frames or purlins
- Considerate lead in for installation without tools
- Rolled edges protect cable insulation from damage
- Lasts for the lifetime of the Solar PV system
- Recommended for outdoor use
- UL1565 Listed

### Application

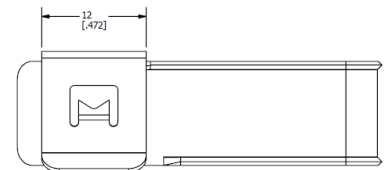

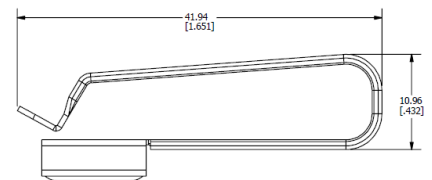

- Perfect solution for keeping the PV installation neat, clean, and free from ground faults
- Accommodates all types of PV cable from 5.0mm to 8.0mm in diameter
- Compatible on modules/purlins with a flange thickness range of 1.0mm to 3.0mm
- Installs in a 90 degree orientation

### Naming Convention: ACC-F490

- ACC = ACME CABLE CLIP
- F = FRAME (FLANGE)
- 4 = UP TO 4 PV CABLE (WIRE TYPE)
- 90 = 90 DEGREE

Rolled edges are flared up and away from the cable to protect cable insulation from damage.

### Markets

- Solar PV
  - Residential: small scale - residential housing
  - Commercial: medium scale - malls, free standing big box stores
  - Utility: large scale - alternative to traditional power plants

### Delivery

- The ACC-F490 is available to order but will not be in stock until early January.
- Please call Sarah Parsons for current LT's. We are in the process of ramping up production
