

UNITAP™ Heavy Duty Series

UL 486A-B Listed; #2-750 kcmil Cu/Al Dual Rated

BURNDY® announces the release of UNITAP™ Heavy Duty Series

BURNDY, a leading manufacturer and provider of mechanical connector solutions to the construction, industrial, solar, OEM, energy, data center, and transportation industries, announces the addition of a Heavy Duty Series of multi-tap and in-line splice reducers to the UNITAP™ family of insulated connectors.

This expansion includes 8 tap configurations and an in-line splice reducer available in both clear and UV-rated black insulation. Each conductor port contains 2 set screws to increase the strength and performance of the connector, and will provide a reliable and robust connection in the most demanding applications. These new additions are Listed to the UL Wire Connector Standard UL486A-486B and are dual rated for use with both aluminum and copper conductor from #2 - 750 kcmil.

About BURNDY

Headquartered in Manchester, New Hampshire, BURNDY has over 90 years of dedicated customer support in both service and product. Our customers need to look no further than BURNDY for all their connector, tool, and accessory needs. BURNDY is the only manufacturer to have the BURNDY® Engineered System of coordinating dies, connectors and tools. The three elements have been specifically designed to work together and engineered to meet stringent, accepted quality standards allowing the user complete confidence in the integrity of the connection.
